RESEARCH AND **DEVELOPMENT**

At NAVI Marketing Sdn. Bhd., innovation is at the heart of everything we do. Our Research and Development (R&D) team is dedicated to pushing the boundaries of ceramic tile design, technology, and sustainability. We continuously explore new materials, production techniques, and design trends to bring cutting-edge products to market that meet the evolving needs of our customers.

OUR R&D FOCUS AREAS:

Innovative Tile Designs

Our design team works closely with architects, interior designers, and industry experts to create new, trend-setting patterns and textures. Whether it's creating unique tile finishes or developing new sizes and shapes, we strive to offer products that reflect the latest design trends while maintaining versatility.

Sustainable Materials

We are committed to sustainability, which is why a key focus of our R&D efforts is the development of eco-friendly ceramic tiles. Our team is constantly researching and experimenting with new materials that reduce environmental impact, such as recycled content and low-emission production processes. The ECO TILE range is a prime example of our dedication to environmentally responsible products.

Advanced Manufacturing Techniques

We invest in the latest production technologies to enhance the efficiency, precision, and quality of our tiles. Through automated systems and advanced firing techniques, we improve the durability, color consistency, and performance of our products. Our R&D team is continuously exploring ways to further optimize the production process.

Tile Durability and Performance

Durability is one of the core qualities of our products. Our R&D team conducts rigorous testing to improve tile performance across various conditions, including resistance to stains, moisture, heat, and wear. We aim to create tiles that can withstand the test of time while maintaining their aesthetic appeal.

Customization and Innovation for Clients

We understand that each project is unique, which is why we work closely with clients to develop custom tile solutions. Whether it’s unique color blends, specific sizes, or other customizations, our R&D team is always ready to collaborate on tailored solutions that meet the specific needs of our clients.

OUR COMMITMENT:

Through continuous research and innovation, NAVI Marketing is committed to delivering cutting-edge ceramic tiles that set industry standards for quality, design, and sustainability. Our R&D efforts ensure that we remain at the forefront of the ceramic tile industry, providing our customers with the best possible products for their projects.
