ONDA 7
Where The Experts Meet

About Our Company

ONDA 7 is a Malaysian offshore engineering company specialising in Ageing & Life Extension of Offshore Structures, Transportation & Installation (T&I), Decommissioning, Artificial Reef Development, and Engineering Consultancy Services.

Founded in 2023, ONDA 7 brings together decades of experience in oil & gas, marine, and renewable energy to deliver innovative, sustainable, and technically precise solutions for the offshore sector.

Our mission is to extend the life of critical infrastructure, protect the oceans, and contribute to a sustainable energy future through cutting-edge engineering and strategic partnerships.

Our Mission & Vision

Vision

To set the benchmark in offshore engineering — delivering sustainable, innovative, and future-ready solutions that extend the life of critical infrastructure and protect our oceans.

Mission

We combine deep offshore expertise with sustainable innovation to solve complex engineering challenges in ageing infrastructure, transportation & installation, and artificial reef development. Through integrity, precision, and trusted partnerships, we help clients in oil & gas, marine, and renewable energy achieve operational excellence while leaving a positive environmental legacy.

Strategic Objectives

1. Lead Through Innovation

Develop and deploy cutting-edge solutions in life extension, decommissioning, and artificial reef engineering.

2. Champion Sustainability

Integrate eco-conscious practices into every project, ensuring reduced environmental footprint and long-term ocean health.

3. Deliver Excellence, Every Time

Exceed client expectations through robust engineering, rigorous safety standards, and agile project delivery.

4. Strengthen Strategic Partnerships

Forge and maintain strong collaborations with global experts to expand our capabilities and reach.

5. Expand Market Presence

Secure key licenses, grow our presence in Malaysia, and strategically enter new global markets.

6. Invest in People & Expertise

Cultivate a multidisciplinary team empowered with continuous learning, innovation, and leadership skills.

ONDA7
Where The Experts Meet

Why Choose Us?

We Creating Sustainable Values for Company

01. Proven Offshore Expertise

Over 80 years combined experience across offshore engineering disciplines.

02. End-to-End Solutions

From design to installation, one contractor for the full project lifecycle.

03. Innovation with Purpose

Tailored engineering methods for unique offshore challenges.

04. Commitment to Sustainability

Eco-friendly practices aligned with global environmental standards.

05. Safety-First Culture

Rigorous safety protocols to protect people, assets, and the environment.

06. Strong Global & Local Partnerships

Collaborations with world-class engineering firms and service providers.

Our Expertise

Project Experience

2022

Provision of Engineering Procurement Fabrication, Mock-up, Installation of Engineered Grouted
Clamp for Node Joint No. 58 Repair at Bertam Well Head Platform for IPC

2023

Provision of Supply and Install of Retrofit Conductor Guides and Anodes for Kayu Manis South East (KMSE) Field Development Project

Provision of Engineering, Execution and Deployment of Node Model as Artificial Reef at Terengganu Water

2024

In 2024, ONDA 7 completed the EPCI of the BALIFEX 1 WSS cable support system in Banang Field, Offshore Malaysia, delivering a safe, on-time, and high-quality solution that improved offshore infrastructure reliability.

2025

In 2025, ONDA 7 successfully delivered the EPCI of a cable support system for the BALIFEX 1 WSS in Banang Field, Offshore Malaysia, ensuring safe, on-time completion and enhanced operational efficiency.

Key Partner

TUV NORD MALAYSIA SDN BHD	Engineering Consultancy Services
HHA ASSOCIATES SDN BHD	EPCC |HOCK-UP | Offshore Maintenance
ACTS SDN BHD	Engineering Services Specialization

Our Expert Team

Short bios for founder & leadership team.

Khairul Campet

Founder

- Degree in Construction Project Management-Heriot Watt University
- Degree in Welding and Quality Inspection KL University

Project Management/Engineering/Quality professional with over 20 years - experience encompassing of full spectrum of project life cycle for upstream projects. Executed Engineering, Procurement, Construction, Commissioning and Start-up for offshore business working for International Operators in Deep-water and Shallow Water Upstream projects.

Assoc. Prof. Ir. Ts. Dr. Mohd Khairi Abu Husain

Associate Professor/Managing Director

- PhD in Offshore Engineering – University of Liverpool, UK - 2008 – 2011
- Efficient (Simulation) Methods for Derivation of Probabilistic Properties of Offshore Structural Response Due to Random Wave Loading
  M.Eng (Hons) in Civil and Environmental Engineering – University of Liverpool, UK - 2004 – 2007
- Determination of the 100-year Waveheight for the Forties Field in the North Sea
  Diploma in Civil Engineering – University Teknologi Malaysia, 2000 – 2003

Working Experiences

- Associate Professor at Razak Faculty of Technology and Informatics, Universiti Teknologi Malaysia (2019 – present)
- Managing Director at ACTS Smart Solutions Sdn. Bhd. (UTM's registered spin-off company) (2018 – present)
- Structural Engineer at MMC Oil & Gas Engineering Sdn Bhd, Malaysia (2014 – 2015)
- Senior Lecturer at UTM RAZAK School of Engineering and Advanced Technology, Universiti Teknologi Malaysia (2012 – 2019)

Mohd Noorkhamis Bin HajiKhamis

Advisor/Engineering Manager

- Master in Civil Engineering, Water and Wastewater – University Technology Of Malaysia
- Bachelor of Chemical Engineering, Gas engineering – University Technology Of Malaysia

More the 20 Years of experience in EPCIC /EPCC/PMC covering discipline:

- Upstream – T&I and Decommissioning
- Downstream – Desalination plant
- Water Maker and Treatment System

Range of roles varying from Project Director, Project Consultancy & Specialist, Construction Manager and Offshore Construction Manager

SHAMSHUL KAMAL BIN ABDUL HALIM

Company Site Representative (CSR)/ Project Manager

- B. Eng (Hons) Mechanical Engineering – UiTM

Has more than 27 years of professional experience in Onshore-Offshore Oil & Gas

- (Upstream) Project Management, Marine Operations, Detail Design Engineering, Installation Engineering, Offshore Construction, Bidding, Estimating and Tender Management. Expert in Offshore Transportation & Installation (T&I) /Decommissioning / EPCI Project on various locations in Malaysia, Indonesia and Middle East. Involved in Shallow-Water and Deep-Water Development, mainly CS & CRA Rigid Pipeline, Riser, Subsea Cable, Subsea Facilities, Shore Approach, Pipeline Replacement, Pre-commissioning and Topside, Substructure, FPS, Mooring System Installation & Decommissioning.

Our Services

Ageing and Life Extension Offshore Structure	T&I and Decommissioning	Artificial Reef	Consultancy & Services
● Fixed Jacket Structure ● Floating Structure ● Topside Structure **Deliverables:** **1. Strengthening Modification and Repair** ● Welding Dry/Wet ● Welding Improvement-Toe Grinding ● Clamp Technology ● Grout Filling ● Bolted Connection ● Member Removal ● Corrosion Protection **2. Engineering Analysis** ● FEA ● Structural Analysis **3. Inspection and Testing** ● Visual Inspection ● Advance NDT ● Underwater NDT ● Coating Inspection	● Jacket Installation ● Topside Installation ● S-Lay Installation ● Surface Tow Installation ● Pipeline Riser Installation **Deliverables:** ● Project Management ● Engineering and Analysis ● Installation Method ● Inspection and Testing	● Steel Structure ● Composite **Deliverables:** ● Project Management Team ● Engineering and Analysis ● Installation Method ● Fabrication	● Corrosion ● Welding & NDT ● Crane ● Ex-Hazardous Equipment **Deliverables:** ● Inspection & Testing ● Technical Assessment

Summary Of Onda 7 SDN BHD

Established: 2023
Founder: Khairul CAMPET
Origin: Malaysia
Sector:
OIL AND GAS
RENEWABLES ENERGY
MARINE
ARTIFICIAL REEF

JOURNEY MILESTONE

- 2024 | PARTICIPATE TENDERING PIPELINE/POWER CABLE
- 2023 | TRANSPORTATION AND INSTALLATION ARTIFICIAL REEF
- 2022 | AGEING OFFSHORE STRUCTURE -JOURNEY BEGAN

FUTURE MILESTONE

- 2025 | PETRONAS LICENCING | GLOBAL MARKET

Summary Of Project

ONDA 7 SDN BHD was contracted by NFK GLOBAL SDN BHD with OWNER/CLIENT, International Petroleum Corporation (IPC) to transform Dummy /Mock-Up Jacket to Artificial Reef.

Project Name	Provision of Engineering Procurement Fabrication, Mock-up, Installation of Engineered Grouted Clamp for Node Joint No. 58 Repair at Bertam Well Head Platform for IPC
Services	Transportation & Installation
Disciplines	Project Management Consultancy
Deliverables	■ Engineering ■ Procurement ■ Construction ■ Installation
Location	■ OPL MARINE Kong-Kong, Johor, Malaysia ■ Offshore, Terengganu Water, Malaysia
Client	■ NFK GLOBAL SDN BHD ■ International Petroleum Corporation (IPC)
Project Date	■ 2023
Water Depth	■ 20 meters ~ Approximately

Summary Of Project

ONDA 7 SDN BHD was contracted by NFK GLOBAL SDN BHD /HHA ASSOCIATES SDN BHD with OWNER/CLIENT, VESTIGO PETROLEUM SDN BHD

Project Name	Provision of Supply and Install of Retrofit Conductor Guides and Anodes for Kayu Manis South East (KMSE) Field Development Project
Services	Transportation & Installation
Disciplines	Project Management Team (PMT)
Deliverables	■ Engineering ■ Procurement ■ Construction ■ Installation
Location	■ HHA HQ, Kuala Lumpur, Malaysia ■ Sarawak Offshore, Malaysia
Client	■ HHA ASSOCIATES SDN BHD ■ VESTIGO PETROLEUM SDN BHD
Project Date	■ 2023
Water Depth	■ 90 meters ~ Approximately

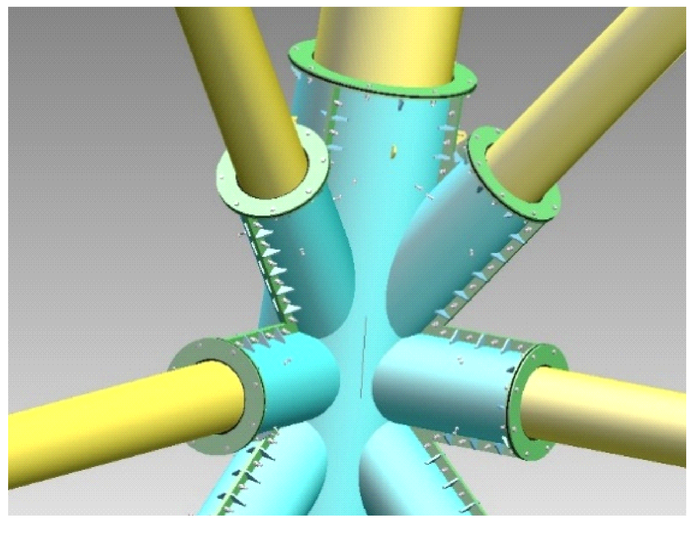

ONDA7
Where The Experts Meet

Summary Of Project

ONDA 7 SDN BHD began supporting ECMS RESOURCES SDN BHD with OWNER/CLIENT, International Petroleum

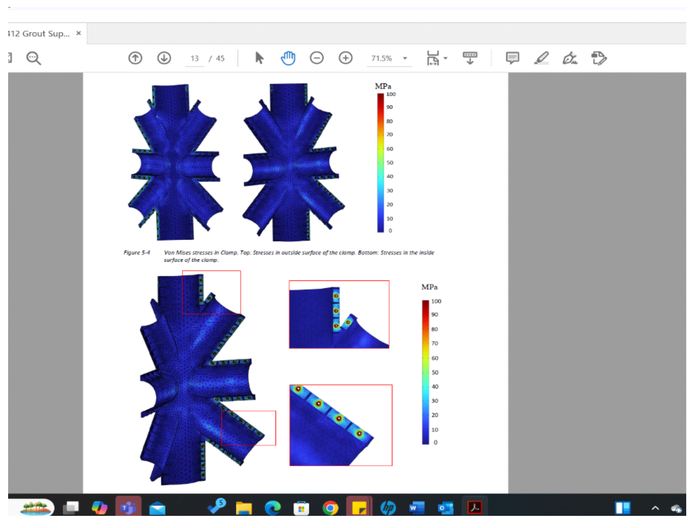

Project Name	Provision of Engineering Procurement Fabrication, Mock-up, Installation of Engineered Grouted Clamp for Node Joint No. 58 Repair at Bertam Well Head Platform for IPC
Services	Transportation and Installation /Ageing Offshore Structure
Disciplines	Project Management Team (PMT)
Deliverables	■ Engineering ■ Procurement ■ Construction ■ Installation
Location	■ Kuala Lumpur, Malaysia ■ Terengganu Offshore, Malaysia
Client	■ International Petroleum Corporation SDN BHD ■ VESTIGO PETROLEUM SDN BHD
Project Date	■ 2022
Water Depth	■ 90 meters ~ Approximately

Summary Of Project

ONDA 7 SDN BHD was contracted by NFK GLOBAL L SDN BHD /PETRA RESOURCES SDN BHD with OWNER/CLIENT, PETRA ENERGY SDN BHD – **ONGOING**

Project Name	Provision of Engineering, Procurement, Construction & installation (EPCI) Of Cable Support System for Wellhead Support Structure (WSS) at Banang Field
Services	Transportation & Installation / Structural Strengthening
Disciplines	Project Management Team (PMT)
Deliverables	■ Engineering ■ Procurement ■ Construction ■ Installation
Location	■ HHA HQ, Kuala Lumpur, Malaysia ■ Terengganu Offshore, Malaysia
Client	■ PETRA RESOURCES SDN BHD ■ PETRA ENERGY DEVELOPMENT SDN BHD
Project Date	■ 2025
Water Depth	■ 65 meters ~ Approximately
