SMACK CONSTRUCTION

COMPANY PROFILE

Civil, Building, M&E, Industrial & Onshore / Offshore Engineering Contractor

Proven Capability. Disciplined Execution.

Civil & Infrastructure · Building & Structural · Mechanical & Electrical · Industrial Maintenance · Oil & Gas Support · Fabrication · Preservation · Project Management

Let's Build. Maintain. Deliver.

COMPANY OVERVIEW

Established in 2002, SMACK Construction is a Malaysian engineering and construction company with more than two decades of experience in delivering civil engineering, building, mechanical & electrical (M&E), infrastructure and specialised construction works. The company has supported both government and private-sector projects through practical project management, experienced technical personnel and disciplined site execution.

Building on its established construction capabilities, SMACK Construction has expanded its service offering to support industrial, onshore and offshore oil & gas operations, including mechanical maintenance, equipment repair and refurbishment, piping and structural fabrication, preservation, shutdown support, cleaning and asset-reliability services. The company remains committed to delivering work safely, efficiently and in accordance with client requirements, industry standards and regulatory obligations.

Let's Build. Maintain. Deliver.

Company Overview & Corporate Snapshot

SMACK Construction is an established Malaysian engineering and construction contractor with more than two decades of experience across civil engineering, building works, mechanical & electrical (M&E), infrastructure and specialised engineering services. Since its establishment in 2002, the company has delivered projects for government agencies and private-sector clients while developing capabilities in project management, technical coordination and site execution.

Today, SMACK Construction's capabilities extend beyond conventional construction into industrial maintenance and onshore/offshore oil & gas support, including mechanical MRO, rotating and packaged equipment, piping and structural fabrication, preservation, corrosion control, shutdown support, cleaning and asset-reliability services.

Corporate Snapshot

Established: 2002
Business Status: Active Malaysian Contractor
Experience: 20+ Years
CIDB Registration: G7
CIDB Categories: Building (B), Civil Engineering (CE) & Mechanical and Electrical (ME)
Government Works: SPKK G7 – B, CE & ME
PETRONAS: Licensed Vendor for Approved Categories
Operating Presence: Melaka Operating Base & Kuala Lumpur Branch
Core Sectors: Construction, Infrastructure, Industrial, Oil & Gas, Marine & Offshore Support
Core Strengths: Engineering · Construction · Maintenance · Fabrication · Preservation · Project Support

Our Journey & Experience

Since its establishment in 2002, SMACK Construction has grown from a Malaysian construction contractor into a broader engineering and project-support company with experience across civil works, building construction, infrastructure, M&E and specialised engineering services. Over more than two decades, the company has supported both government and private-sector projects through disciplined project management, technical coordination and practical site execution.

Our Journey

1

2002 – Establishment

SMACK Construction commenced operations in Malaysia, building its foundation in construction and engineering works.

Growth in Civil & Building Works

The company developed capabilities in drainage, earthworks, infrastructure, roofing, refurbishment, structural works, M&E and related construction services.

Government & Private-Sector Projects

SMACK Construction gained project experience serving public agencies and private organisations, supported by experienced technical and site teams.

2

2023–2025 – Major Project Delivery

Recent documented projects include drainage-system upgrading works in Johor and roofing and ceiling replacement works for workers' quarters under Johor Plantation Group Berhad.

3

2026 – Expanded Industrial & Energy Capabilities

The company further positioned itself to support industrial, onshore and offshore oil & gas activities, including mechanical MRO, equipment refurbishment, fabrication, preservation, shutdown support and asset-reliability services.

20+ Years of Experience

Construction · Infrastructure · M&E · Industrial Maintenance · Oil & Gas Support · Fabrication · Asset Reliability

Built on experience. Strengthened by capability. Focused on dependable delivery.

Vision, Mission & Core Values

Vision

To be a trusted and forward-looking Malaysian engineering and construction partner, delivering safe, high-quality and sustainable solutions that create long-term value for clients and stakeholders.

Mission

- Deliver projects safely, efficiently and within approved schedules and budgets
- Provide practical and technically sound engineering solutions
- Maintain strong standards of quality, compliance and accountability
- Build long-term relationships through dependable project delivery

Core Values

- **Safety** – Protect people, assets and the environment.
- **Accountability** – Take ownership and deliver on commitments.
- **Quality** – Maintain disciplined standards in every project.
- **Technical Discipline** – Apply structured engineering, inspection and verification.
- **Responsiveness** – Adapt quickly to client and operational needs.

Company Information

Let's Build. Maintain. Deliver.

Company Name:	SMACK CONSTRUCTION
Registration No:	200203104490 (001369109-V)
Business Form:	Sole Proprietorship
Year Established:	2002
Business Status:Business Status:	Active
CIDB Grade:	Active
CIDB Categories:	Building (B), Civil Engineering (CE), Mechanical & Electrical (ME)
PETRONAS Status:	Licensed Vendor for Approved Categories
Operating Base:	Melaka, Malaysia
Branch:	Kuala Lumpur
Telephone:	06-232 2099 I 012-652 5474
Email:	smackconstruction18@gmail.com
Banker:	Maybank Islamic Berhad

Registered Address

The company profile states:

60, Jalan KPTU 1, Kawasan Perindustrian Tasik,
76100 Durian Tunggal, Melaka, Malaysia

However, the latest CIDB PPK and SPKK certificates state No. 60, Jalan KPTU 3, Kawasan Perindustrian Tasik Utama. This address should be confirmed with the client before the final profile is published.

Let's Build. Maintain. Deliver.

Our Business Scope

SMACK Construction provides a broad range of construction, engineering, maintenance and industrial support services for government, private-sector, infrastructure, industrial and oil & gas projects. Its scope combines established civil and building capabilities with M&E, specialised engineering, fabrication, maintenance and onshore/offshore support.

Core Business Areas

Civil & Infrastructure Engineering

Drainage, earthworks, roads, pavements, slope works and related infrastructure.

Mechanical & Electrical (M&E)

Electrical installation, mechanical systems, motors, panels, instrumentation and M&E support.

Industrial & Oil & Gas Support

Mechanical MRO, equipment refurbishment, shutdown support and onshore/offshore maintenance services.

Preservation & Asset Protection

Corrosion control, equipment preservation, coating and storage protection.

Building & Structural Works

Building construction, roofing, ceilings, refurbishment, repair and structural works.

Specialised Engineering

Piling, ground improvement, retaining structures, pipeline and technical engineering support.

Piping & Fabrication

Piping, structural steelwork, skids, supports, tanks and field modification works.

Integrated Core Capabilities

SMACK Construction delivers integrated solutions across construction, engineering, maintenance and industrial support, combining established project execution capability with practical onshore and offshore technical services.SMACK Construction delivers integrated solutions across construction, engineering, maintenance and industrial support, combining established project execution capability with practical onshore and offshore technical services.

Core Capabilities

Civil & Infrastructure

Drainage, earthworks, roads, pavements, slope works and related infrastructure.

Building & Structural

Construction, refurbishment, roofing, structural works, platforms, supports and steelwork.

Mechanical & Electrical

Mechanical systems, motors, panels, instrumentation, electrical installation and maintenance.

Mechanical MRO

Inspection, troubleshooting, repair, refurbishment, reassembly and functional testing.

Piping & Fabrication

Piping, spool repair, skids, tanks, supports, structures and field modifications.

Preservation & Corrosion Control

Asset protection for shutdown, storage, transport and delayed commissioning.

Shutdown & Maintenance Support

Planned maintenance, breakdown response, mobilisation, cleaning and return-to-service support.

Project Management

Planning, coordination, site supervision, quality control, safety and project handover.

One Integrated Platform — From Construction to Maintenance and Asset Support.

Let's Build. Maintain. Deliver.

Civil & Infrastructure Engineering

SMACK Construction provides practical and reliable civil and infrastructure engineering solutions for government, commercial and industrial projects. Our capabilities cover site development, drainage, earthworks, road works and associated infrastructure, supported by experienced project coordination and site execution teams.

Key Capabilities

Drainage & Water Management

Drainage upgrading, channel works and related infrastructure improvements.

Earthworks & Excavation

Site preparation, excavation, filling and associated civil works.

Road & Pavement Works

Construction, upgrading and maintenance of roads and pavement infrastructure.

Bund & Slope Works

Construction and maintenance of bunds, slope repair, protection and stabilisation.

Pipeline & Structural Support

Civil and structural support works associated with pipeline and infrastructure projects.

Infrastructure Maintenance

Repair, upgrading and maintenance works to support long-term asset performance.

Built for Strength. Delivered with Precision.

Building & Structural Works

SMACK Construction undertakes a range of building and structural works for government, commercial, industrial and infrastructure-related projects. Its capabilities include new construction, refurbishment, repair, roofing, ceiling works and structural support, delivered with attention to quality, safety and site coordination.

Key Capabilities

Building Construction

Construction of buildings and related structural works.

Roofing Works

Roof replacement, repair and associated building works.

Ceiling Installation & Replacement

Installation, replacement and maintenance of ceiling systems.

Repair & Refurbishment

Building repair, upgrading, refurbishment and general maintenance works.

Structural Steelworks

Skids, frames, platforms, supports, tanks and other structural steel components.

Access & Support Structures

Fabrication and installation of access structures and project-specific support systems.

Fabrication and installation of access structures and project-specific support systems.

YOUR COMPANY SLOGAN

Mechanical & Electrical Engineering

SMACK Construction provides mechanical and electrical engineering support for building, infrastructure, industrial and oil & gas-related projects. Its capabilities cover installation, maintenance, troubleshooting and technical support for mechanical systems, electrical equipment and control components.

Key Capabilities

Electrical Installation & Maintenance

Installation, inspection and maintenance of electrical systems and equipment.

Mechanical Systems Works

Support for mechanical systems used in buildings, infrastructure and industrial facilities.

Motors & Panels

Motor support, panel works, fault tracing and associated maintenance activities.

Instrumentation & Controls

Instrumentation support, control-cabin repair, cable checks and specialist system integration.

Industrial Electrical Support

Electrical equipment installation, troubleshooting and maintenance for industrial operations.

M&E Project Support

Technical coordination and M&E support for buildings and infrastructure projects.

Reliable Systems. Practical Engineering.

Rotating & Packaged Equipment

Let's Build. Maintain. Deliver.

SMACK Construction provides maintenance, repair and refurbishment support for a range of rotating and packaged equipment used across industrial, onshore and offshore operations. Services are focused on restoring equipment condition, improving operational readiness and supporting reliable return to service.

Key Equipment & Capabilities

Pumps & Motors

Inspection, repair, refurbishment and maintenance support for pumps and associated motor systems.

Generators & Industrial Engines

Condition assessment, troubleshooting, cleaning, repair and reassembly support.

Filtration & Process Packages

Maintenance support for sand, filtration and other skid-mounted process equipment.

Steam Generators

Inspection, servicing and refurbishment support for steam-generation packages.

Hydraulic Power Units & Winches

Repair, functional checking and maintenance support for hydraulic and winch systems.

Air Compressors & Blowers

Condition assessment, troubleshooting, cleaning, repair and reassembly support.

Generators & Industrial Engines

Inspection, corrective maintenance and return-to-service support for generator and engine systems.

Restore Performance. Improve Readiness. Extend Asset Life.

Let's Build. Maintain. Deliver.

Hydraulic, Pneumatic, Electrical & Control Systems

SMACK Construction provides technical support for hydraulic, pneumatic, electrical and control systems used in industrial, marine, onshore and offshore operations. Services include inspection, fault tracing, component replacement, pressure verification, functional testing and reinstatement support.

Key Capabilities

Hydraulic Power Units & Winches
Inspection, maintenance, troubleshooting and functional support for hydraulic power units and winch systems.

Actuators, Cylinders & Motors
Support for hydraulic actuators, cylinders, motors and related components.

Hoses, Fittings & Connections
Leak tracing, hose and fitting replacement, cleanliness checks and pressure verification.

Electrical Equipment & Motors
Electrical installation, motor support, fault tracing and maintenance coordination.

Panels & Instrumentation
Panel, instrumentation, cable and termination checks for industrial systems.

Control Systems & Cabins

Control-cabin repair, specialist system integration and reinstatement support.

Reliable Control. Practical Support. Verified Performance.

Piping, Fabrication & Structural Engineering

SMACK Construction provides piping, fabrication and structural engineering support for industrial, infrastructure, marine, onshore and offshore applications. Services cover fabrication, modification, repair, installation and field support based on approved drawings, materials, inspection requirements and project-specific site conditions.

Key Capabilities

Piping Fabrication & Repair
Fabrication, spool repair, modification, fit-up and installation support.

Field Tie-In Works
Support for piping connections, modifications and field integration.

Structural Steelworks
Fabrication and installation of skids, frames, platforms, supports and steel structures.

Industrial Tanks & Supports
Fabrication and structural support for industrial tanks and related systems.

Access Structures
Platforms, access structures and associated support systems for operational requirements.

Site Modification & Installation
Project-specific structural and piping modifications, installation and coordination support.

Built to Fit. Engineered to Perform.

Let's Build. Maintain. Deliver.

Pipeline Engineering & Support Services

SMACK Construction provides pipeline engineering consultancy and associated support services for industrial, infrastructure and oil & gas-related projects. The company's scope includes pipeline coordination together with civil, structural and construction support required for effective project execution.

Key Capabilities

Pipeline Engineering Consultancy
Technical and engineering support for pipeline-related project requirements.

Pipeline Support Works
Associated civil and structural works to support pipeline installation and infrastructure needs.

Civil & Structural Integration
Coordination of earthworks, supports, access and related structural requirements around pipeline projects.

Fabrication & Installation Support
Support for piping, structural fabrication, field modifications and related installation activities.

Project Coordination
Planning, mobilisation, site coordination and execution support based on project-specific requirements.

Integrated Support from Engineering to Site Execution.

Let's Build. Maintain. Deliver.

Preservation & Corrosion Control

SMACK Construction provides preservation and corrosion-control support to protect equipment and assets during shutdowns, storage, transportation, delayed commissioning and idle periods. Protection methods are selected according to asset material, environmental conditions, accessibility and required preservation duration.

Key Capabilities

Shutdown & Turnaround Protection

Preservation support for equipment during planned shutdown and turnaround periods.

Transport & Marine Protection

Preservation support for equipment during transport and marine shipment.

Corrosion-Control Systems

VpCI systems where specified, wrapping, coatings, covers and desiccants.

Storage & Lay-Up Preservation

Protection for short-term, long-term and standby equipment storage.

Delayed Commissioning Protection

Asset protection where installation or commissioning is postponed.

Inspection & Verification

Condition checks, sealing verification, preservation records and maintenance scheduling.

Protect Assets. Preserve Condition. Extend Service Life.

Tank, Vessel & Heat Exchanger Services

SMACK Construction provides cleaning, inspection-access preparation, repair support and return-to-service assistance for tanks, vessels and heat exchangers across industrial, marine, onshore and offshore environments.

Key Capabilities

Tank Cleaning
Internal and external access preparation, mechanical cleaning and residue-management coordination.

Vessel Cleaning & Support
Cleaning, access preparation, visual observations and minor repair support.

Heat Exchanger Services
Cleaning, inspection-access support and preparation for maintenance or repair activities.

Pressure & Leak Test Coordination

Support for pressure testing, leak verification and integrity-related checks where required.

Inspection Access Preparation

Preparing equipment and work areas to support safe inspection and maintenance activities.

Return-to-Service Support

Restoration, punch-list support and preparation for safe recommissioning.

Clean. Inspect. Restore. Return to Service.

Let's Build. Maintain. Deliver.

Shutdown, Breakdown & Maintenance Support

SMACK Construction provides coordinated support for planned shutdowns, breakdown recovery and ongoing maintenance activities across industrial, marine, onshore and offshore environments. The focus is on rapid mobilisation, controlled execution, progress tracking and effective return-to-service support.

Key Capabilities

Planned Shutdown Support
Scope clarification, manpower planning, tooling preparation and work coordination.

Breakdown Recovery
Rapid response, troubleshooting support and mobilisation for urgent maintenance needs.

Maintenance Execution
Mechanical, electrical and equipment-related maintenance support during plant and facility operations.

Daily Progress Control
Work monitoring, issue escalation and coordination with project stakeholders.

Punch-List Closure
Tracking, rectification and completion of outstanding maintenance items.

Handover & Reporting
Completion records, inspection documentation and maintenance recommendations.

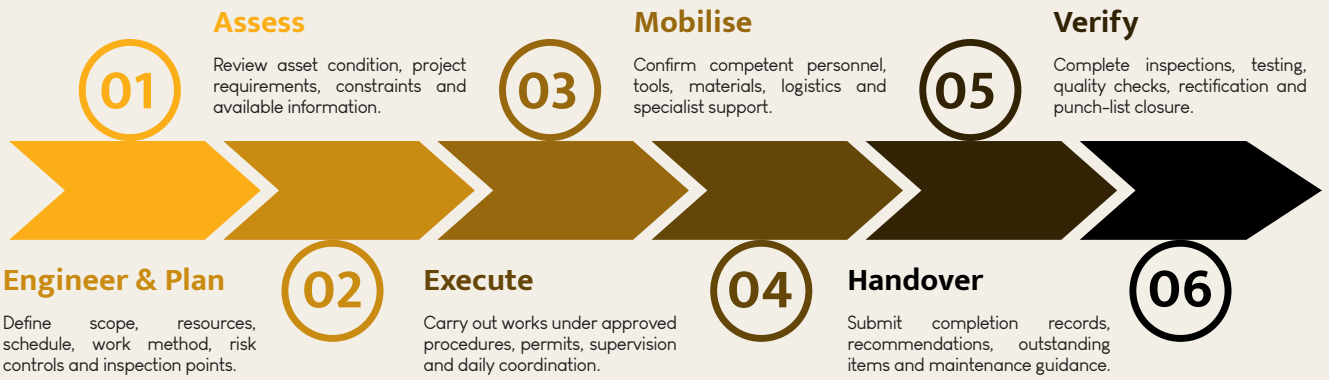

Respond Fast. Execute Safely. Restore Operations.

Let's Build. Maintain. Deliver.

Project Management & Delivery Methodology

SMACK Construction applies a structured project delivery approach to ensure each scope is properly planned, safely executed, technically verified and effectively handed over. Project activities are coordinated around client requirements, site conditions, resources, quality controls and operational priorities.

Delivery Methodology

Project Controls

Method Statements · JSA · Permit-to-Work · Inspection & Test Checkpoints · Daily Progress Reporting · Traceability · Punch-List & Handover

Plan with Discipline. Execute with Control. Deliver with Confidence.

HSE, Quality & Environmental Commitment

SMACK Construction is committed to maintaining strong standards of Health, Safety, Environment and Quality (HSEQ) across all project activities. The company applies structured controls to protect personnel, assets and the environment while ensuring work is completed in accordance with client requirements, statutory obligations and approved project standards.

Health & Safety

- Risk assessment, toolbox briefings and permit-to-work controls
- Use of competent personnel and suitable PPE
- Inspection of tools, lifting accessories and test equipment
- Stop-work authority where conditions are unsafe or unclear

Quality Assurance & Control

- Approved procedures, drawings and specifications
- Inspection checkpoints and hold points
- Material, component and test traceability where required
- Defect rectification, final verification and handover records

Environmental Responsibility

- Good housekeeping and responsible waste handling
- Environmental controls during project execution
- Compliance with applicable site and statutory requirements

Our Commitment

Safe Work · Quality Delivery · Responsible Execution · Continuous Compliance

Let's Build. Maintain. Deliver.

Selected Construction Project Experience

Drainage System Upgrading Works – Johor

Client

Jabatan Pengairan & Saliran Johor

Project

Upgrading of Drainage System at Parit Hj. Osman, Tanjung Agas, Tangkak District, Johor

Year

2023

Contract Value

MYR 6,263,881.30

Scope of Work

- Drainage system upgrading
- Civil engineering works
- Earthworks and site preparation
- Related infrastructure works

This project demonstrates SMACK Construction's capability in delivering civil and infrastructure works involving drainage improvement, earthworks and coordinated site execution.

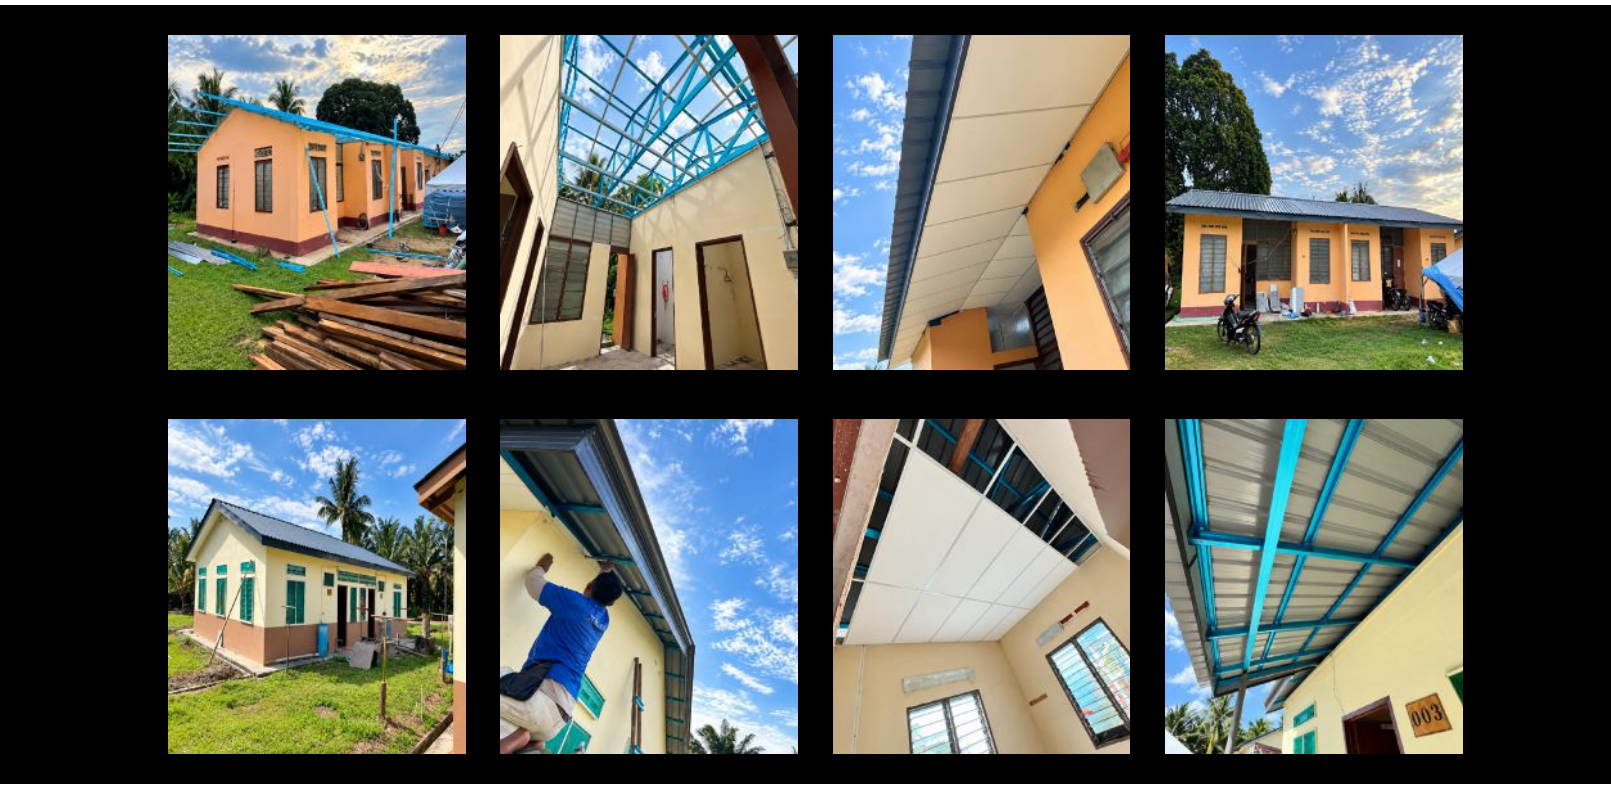

Safe Work · Quality Delivery · Responsible Execution · Continuous Compliance

Selected Building Project Experience

Roofing & Ceiling Replacement Works – Johor

Client

Johor Plantation Group Berhad

Project

Replacement of Roofing and Ceiling for Estates and Mills Workers' Quarters – Central Region

Year

2025

Contract Value

Package 3: MYR 2,647,600.00
Package 4: MYR 5,540,200.00

Scope of Work

- Roofing replacement works
- Ceiling installation and replacement
- Related building works
- Site coordination and execution support

This project highlights SMACK Construction's capability in delivering building refurbishment and maintenance works across multiple packages while maintaining coordinated site execution and quality control.

Reliable Building Works. Quality Execution.

Let's Build. Maintain. Deliver.

Industrial & Onshore / Offshore Experience

SMACK Construction has developed representative experience across industrial, oil & gas, marine and offshore environments, supporting maintenance, refurbishment, fabrication, preservation and construction-related activities. The company's experience includes both direct operating history and the prior experience of key personnel and delivery partners, with specific client names and asset details generalised for confidentiality.

Representative Experience

Offshore Production & Energy Services

Refurbishment of compressors, filtration packages, steam generators, hydraulic power units, winches and control cabins, including equipment prepared for offshore deployment.

Onshore Oil & Gas / Petrochemical

Pump and motor repair, electrical installation, equipment preservation, shutdown support and maintenance within operating facilities and support yards.

FPSO, Marine & Support Bases

Tank-cleaning support, piping and structural works, vessel and heat-exchanger cleaning, repair support and mobilisation activities.

Pipeline, Civil & Construction

Pipeline engineering support, road and pavement works, building construction, industrial tanks and associated civil/structural coordination.

Manufacturing & Process Plants

Preventive maintenance, breakdown troubleshooting, mechanical fabrication, coating and corrosion-control activities.

Supporting Asset Reliability Across Onshore, Offshore & Industrial Operations.

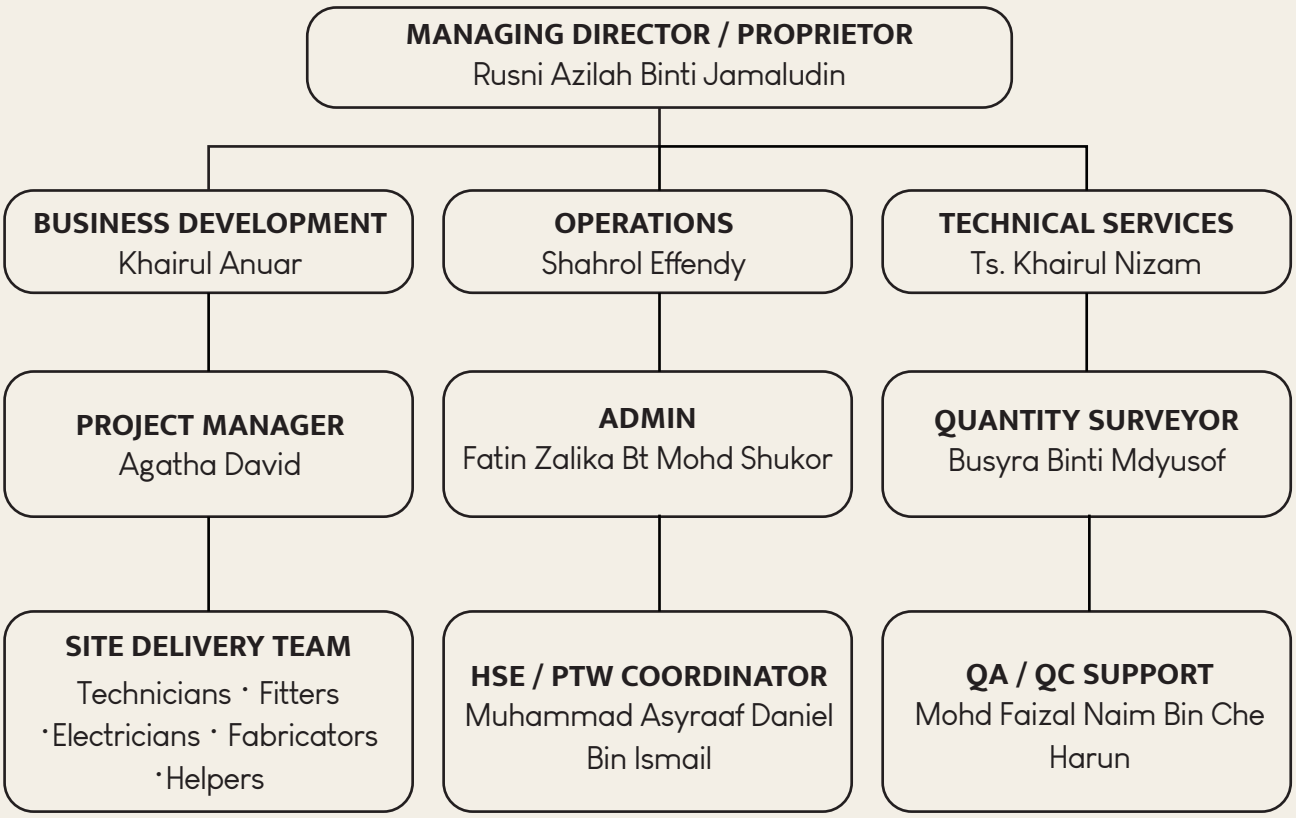

Organisation & Project Delivery Structure

SMACK Construction operates with a lean, coordinated and scalable organisation, bringing together management, technical, HSE, quality and site execution functions to support efficient project delivery across construction, industrial and onshore/offshore works.

Organisation Structure

Project Delivery Flow

CLIENT → **SMACK CONSTRUCTION MANAGEMENT** → **PROJECT MANAGEMENT & TECHNICAL TEAM**

HSE / QAQC / SITE SUPERVISION → **TECHNICAL & OPERATIONS TEAM** → **PROJECT EXECUTION & HANDOVER**

Registrations, Licences & Certifications

SMACK Construction maintains key registrations, licences and compliance credentials that support its participation in construction, government procurement, industrial and oil & gas-related works in Malaysia.

PETRONAS

LICENSE TO SUPPLY PRODUCT/SERVICE TO EXPLORATION AND OIL/GAS COMPANIES IN MALAYSIA

In exercising the powers conferred by Section 7, Petroleum Development Act 1974 and in accordance to Regulation 5 of the Petroleum Regulation 1974, delegated to me by the Prime Minister of Malaysia, I hereby issue the license under Regulation 3 of the Petroleum Regulation for the purpose of the above to:

Certificate generated at: 26.05.2026

SMACK CONSTRUCTION. (200203104490)
60,JALAN KPTU 1,KAWASAN PERINDUSTRIAN TASIK,76100 DURIAN TUNGGAL,MELAKA,

Details of License are as follows:

Company's No	: 200203104490
Type of Company	: License
Duration of License	: 12.05.2026 - 11.05.2029
License Fee	: RM 750.00
Categories of Product/Service	: As attached in 'CATEGORIES OF LICENSE / REGISTRATION'.

Special Conditions impose onto this license:-

Subject to the special conditions as attached.

General requirements of this License are as stated in the next page.

Reminder: License Must Apply For Renewal 4 Months Before The Expiry Date.

PETRONAS LICENSE GENERAL CONDITIONS

1. Company is required to register, obtain a license, permit or authorization from the relevant authority to carry out the services or supply of product or material used in company's operation and activities;

2. This license is not transferable to any company/other party;

3. This license will be revoked if the company is found to be in the process of liquidation, winding-up or dissolution;

4. Company shall inform PETRONAS on any changes related to company's position such as equity ownership, board of directors and management staff within **fourteen (14) days**. Failure to do so can result in revoke of License;

5. Company should take immediate action to adhere to the special conditions imposed as stated in the appendix of the PETRONAS license certificate and to inform PETRONAS on the progress of this action;

6. Company is not allowed to take another company as principal, agent, sub-contractor or otherwise to provide any service or supply of any facility, fittings or equipment on its behalf without prior written consent from PETRONAS;

7. Company shall allow PETRONAS representatives for inspection visit / site / company audit and review / copy of documents and interviewing employees and related parties;

f. Sub-contract work to another contractor without written permission from PETRONAS.

g. Reject any contract or tender awarded.
