COMPANY PROFILE

SEBIRU CONTRACTOR SDN. BHD.

Building Excellence, Engineering Solutions

Sebiru Contractor Sdn. Bhd., established in 2020, specializes in civil, electrical, and mechanical engineering services. We are committed to delivering high-quality construction solutions for both commercial and residential projects across Malaysia.

COMPANY OVERVIEW

Sebiru Contractor Sdn. Bhd., established in 2020, is a leading construction and engineering firm based in Bintulu, Sarawak. Specializing in civil, electrical, and mechanical engineering services, we offer comprehensive solutions for both commercial and residential projects.

Our team of experienced professionals is dedicated to delivering high-quality, cost-effective, and timely construction services. With a strong focus on safety, innovation, and sustainability, we have built a reputation for excellence in the industry. Whether it's roadways, bridges, sewerage systems, or electrical installations, Sebiru Contractor is committed to meeting the diverse needs of our clients while adhering to the highest standards of quality.

We take pride in our ability to manage large-scale projects and provide end-to-end services, from planning and design to construction and maintenance. At Sebiru Contractor, our mission is to build lasting relationships with clients by delivering results that exceed expectations.

SERVICES OFFERED

At Sebiru Contractor Sdn. Bhd., we offer a wide range of construction and engineering services, tailored to meet the unique needs of our clients. Our expertise spans across several key areas, ensuring that we provide comprehensive and high-quality solutions for every project.

1. General Construction

- Roadways: Construction of highways, roads, and access roads.
- Bridges: Engineering and construction of bridges for both urban and rural areas.
- Drainage Systems: Designing and building effective drainage solutions to prevent flooding and waterlogging.

2. Engineering Services

- **Civil Engineering:** Site development, structural design, and foundation works for various infrastructure projects.
- **Electrical Engineering:** Installation and maintenance of electrical systems, including wiring, lighting, and power distribution.
- **Mechanical Engineering:** Mechanical installations for HVAC systems, plumbing, and other infrastructure-related systems.

3. Project Management

- End-to-End Management: From initial consultation and design to construction and final delivery, we ensure that projects run smoothly, on time, and within budget.
- Consulting Services: Feasibility studies, budgeting, and regulatory compliance for successful project execution.

4. Specialized Services

- Plumbing & Air-Conditioning: Complete installation and maintenance of plumbing and HVAC systems.
- Telecommunication Wiring: Setup of telecommunication infrastructure and systems for commercial and residential properties.
- Electrical Installations: Full-scale electrical installations and maintenance for industrial, commercial, and residential projects.

5. Supply and Distribution

- Construction Materials: Supplying high-quality materials for various construction projects.
- Equipment & Parts: Distribution of generators, vessels parts, electrical appliances, and accessories.

COMPANY CAPABILITIES

At Sebiru Contractor Sdn. Bhd., our capabilities are rooted in a commitment to excellence, quality, and safety. With a team of highly skilled professionals and access to advanced technology and equipment, we are equipped to handle a diverse range of construction and engineering projects.

1. Certified Expertise

- **CIDB Registered Contractor:** We are registered with the Construction Industry Development Board (CIDB), ensuring compliance with industry standards and regulations.
- **ISO Certifications:** Adherence to international standards for quality management (ISO 9001) and safety management (ISO 45001), ensuring that all our projects meet the highest quality benchmarks.

2. Advanced Equipment & Technology

- **State-of-the-Art Machinery:** We use modern construction machinery, including cranes, bulldozers, excavators, and more, to ensure efficiency and safety on every project.
- **Technology-Driven Solutions:** Our team utilizes the latest construction technologies, from 3D design software for project planning to real-time monitoring tools for managing construction sites efficiently.

3. Strong Project Management

- Experienced Project Managers: Our project managers oversee every aspect of construction, from planning and budgeting to execution and delivery, ensuring that all projects are completed on time and within budget.
- Comprehensive Project Planning: We provide end-to-end project management services, including feasibility studies, risk assessments, and post-construction support, ensuring successful project delivery.

4. Skilled Workforce

- Expert Engineers & Technicians: Our team includes highly trained engineers and technicians who bring years of experience in civil, mechanical, and electrical engineering to each project.
- Certified Safety Standards: Safety is our top priority. Our workforce is regularly trained on the latest safety protocols and standards to ensure a safe working environment for all.

5. Commitment to Quality & Sustainability

- High-Quality Standards: We adhere to strict quality control measures, ensuring that every project meets industry standards and client expectations.
- Sustainable Practices: We are committed to sustainability, using eco-friendly materials and adopting energy-efficient practices in all our construction projects.

6. Versatility Across Industries

- Diverse Project Expertise: We have experience in a wide range of industries, including residential, commercial, industrial, and infrastructure projects.
- Custom Solutions: Whether it's a small residential building or a large-scale infrastructure project, we tailor our services to meet the specific needs of each client.
