WELCOME MESSAGE
OR DIRECTOR'S NOTE

From the Desk of the Director – Rajkumar Segaran

Welcome to Sungrit Engineering. Our mission is to deliver safe, reliable, and high-quality engineering solutions across civil works, roadworks, drainage, and earthworks projects.

Since our registration under SSM (003717924-U), we have focused on professionalism, precision, and integrity, building long-term trust with our clients.

Our skilled team, modern equipment, and disciplined project management ensure every project is completed on time, within budget, and to the highest standards.

Thank you for considering Sungrit Engineering. We look forward to partnering with you on innovative and dependable engineering solutions.

Rajkumar Segaran
Director
Sungrit Engineering

COMPANY OVERVIEW

Sungrit Engineering is a Malaysian-owned engineering company specializing in civil works, roadworks, drainage, and earthworks. Since our registration under SSM (003717924-U), we have been committed to delivering reliable, safe, and high-quality engineering solutions tailored to the needs of our clients.

Headquartered at No 24 Jalan PJS 2C/11F, Taman Medan, Petaling Jaya, Selangor, our team combines skilled technical staff, experienced project managers, and disciplined operational practices to ensure every project is completed efficiently, on schedule, and to the highest standards.

At Sungrit Engineering, we believe in integrity, professionalism, and client-focused service, building long-term partnerships and fostering trust in every engagement.

MISSION

To deliver safe, reliable, and high-quality engineering solutions across civil works, roadworks, drainage, and earthworks, tailored to our clients' needs.

VISION

To be a leading engineering service provider in Malaysia, recognized for excellence, professionalism, and innovation in every project we undertake.

CORE VALUES

- **Integrity:** Upholding honesty, transparency, and ethical practices in all our operations.
- **Professionalism:** Ensuring disciplined, efficient, and high-standard project execution.
- **Safety:** Prioritizing the well-being of our team and clients through strict compliance with safety standards.
- **Excellence:** Striving for superior quality and continuous improvement in every project.
- **Teamwork:** Fostering collaboration, mutual respect, and shared responsibility within our workforce.

OUR SERVICES –

OVERVIEW

At Sungrit Engineering, we provide a wide range of engineering solutions designed to meet the diverse needs of our clients. Our services combine technical expertise, industry experience, and disciplined project management to ensure projects are delivered efficiently, safely, and to the highest quality standards.

Key Service Categories:

- **Civil Works** – Roads, pavements, concrete structures, and general civil construction.
- **Roadworks** – Road construction, resurfacing, and maintenance.
- **Drainage & Earthworks** – Site grading, trenching, drainage systems, and soil stabilization.
- **Mechanical & General Engineering Services** – Structural installations, equipment setup, and site support services.

Our approach is client-focused, compliant with Malaysian regulations, and committed to safety and sustainability, making Sungrit Engineering a trusted partner for infrastructure and engineering projects.

SERVICE DETAILS – CIVIL WORKS

Sungrit Engineering specializes in comprehensive civil works, delivering high-quality construction and infrastructure solutions for a variety of projects. Our civil works services include:

- **Road Construction & Maintenance:** Construction of new roads, resurfacing, and repair works to ensure durability and compliance with safety standards.
- **Concrete Structures:** Design, casting, and installation of reinforced concrete structures, including foundations, retaining walls, and slabs.
- **Site Preparation & Grading:** Earthmoving, leveling, and preparation of construction sites for optimal project execution.
- **Pavement & Sidewalk Works:** Construction and repair of pavements, walkways, and pedestrian areas with attention to durability and aesthetics.
- **Infrastructure Support:** Collaborating with utilities, drainage systems, and related infrastructure to ensure smooth integration of civil projects.

Our civil works team combines technical expertise, modern equipment, and strict adherence to safety regulations, ensuring that each project is completed on time, within budget, and to the highest quality standards.

SERVICE DETAILS

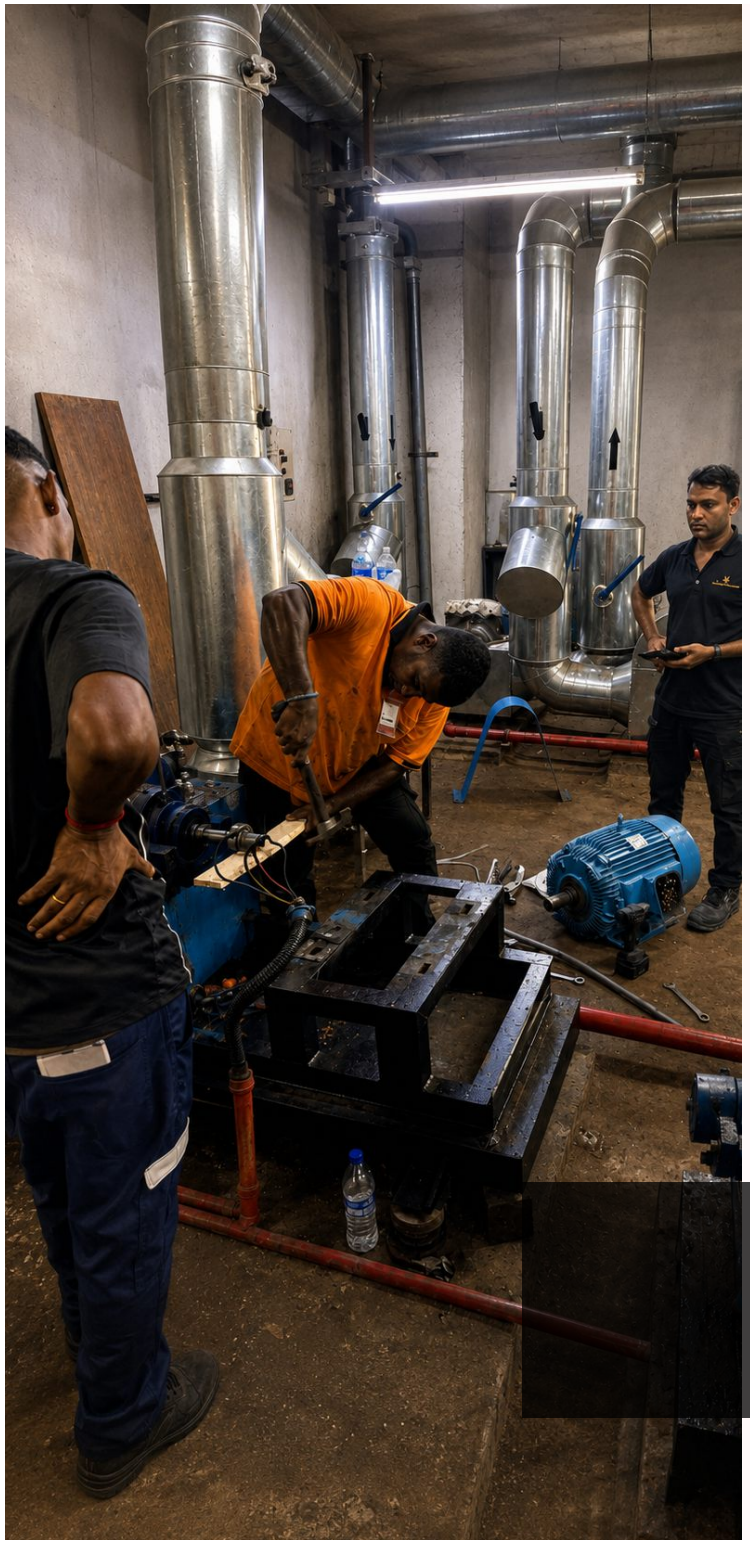

– DRAINAGE & EARTHWORKS

Sungrit Engineering provides specialized drainage and earthworks services to ensure efficient, safe, and sustainable site development. Our expertise covers both small-scale and large-scale projects, including:

- **Site Grading & Earthmoving:** Excavation, leveling, and soil stabilization to prepare construction sites for optimal performance.
- **Drainage System Installation:** Design and construction of surface and subsurface drainage systems, including culverts, trenches, and stormwater management solutions.
- **Trenching & Backfilling:** Safe and precise trenching for utilities, pipelines, and drainage, followed by proper backfilling to ensure structural integrity.
- **Erosion Control & Soil Management:** Implementation of best practices to prevent soil erosion and maintain site stability during and after construction.
- **Site Clearance & Preparation:** Removal of debris, vegetation, and obstacles to create a safe and compliant work environment.

Our approach emphasizes technical precision, regulatory compliance, and environmental responsibility, ensuring every drainage and earthworks project is completed on time, within budget, and to the highest quality standards.

SERVICE DETAILS

– MECHANICAL / GENERAL ENGINEERING WORKS

Sungrit Engineering provides a range of mechanical and general engineering services to support infrastructure and construction projects. Our services focus on precision, reliability, and safety, ensuring all installations meet client specifications and regulatory standards.

- **Structural Installations:** Assembly and installation of mechanical and structural components for buildings, industrial sites, and civil projects.
- **Equipment Setup & Commissioning:** Installation, alignment, and testing of machinery and equipment to ensure optimal performance.
- **Maintenance & Support Services:** Routine inspection, preventive maintenance, and on-site troubleshooting to minimize downtime.
- **Site Mechanical Works:** Integration of mechanical systems, supports, and auxiliary structures to complement civil engineering projects.
- **Customized Engineering Solutions:** Tailored mechanical solutions to meet unique project requirements, including small-scale and large-scale infrastructure needs.

Our experienced engineers, skilled technical staff, and modern equipment allow us to deliver projects that are safe, compliant, and high-quality, ensuring client satisfaction every step of the way.

TECHNICAL CAPABILITY & EQUIPMENT

Sungrit Engineering is equipped with the technical expertise, skilled workforce, and modern machinery necessary to execute projects efficiently and safely. Our capabilities allow us to handle civil, mechanical, and infrastructure projects of varying scales with precision and professionalism.

Our Technical Strengths Include:

- **Qualified Engineers & Skilled Technicians:** Experienced team capable of delivering complex engineering solutions.
- **Project Management Expertise:** Efficient planning, scheduling, and resource allocation to meet timelines and budgets.
- **Advanced Equipment & Machinery:** Modern earthmoving, excavation, grading, and mechanical equipment for civil and mechanical works.
- **Safety & Compliance Systems:** Tools and practices ensuring adherence to Malaysian regulations and industry standards.
- **Innovative Solutions:** Custom engineering approaches to meet unique project requirements and client specifications.

Our commitment to state-of-the-art equipment, skilled personnel, and disciplined project execution ensures that every project is delivered on time, within budget, and to the highest standards of quality.

PROJECT APPROACH / METHODOLOGY

At Sungrit Engineering, we follow a structured and disciplined methodology to ensure that every project is executed efficiently, safely, and to the highest standards. Our approach combines technical expertise, modern equipment, and robust project management practices.

Our Project Approach:

Initial Consultation & Assessment:

Understanding client requirements, project scope, site conditions, and regulatory requirements.

Site Preparation & Mobilization:

- Clearing, grading, and preparing the site.
- Mobilizing personnel, machinery, and materials efficiently.

Monitoring & Reporting:

- Continuous supervision, progress tracking, and client updates.
- Immediate resolution of technical or logistical issues.

Planning & Design:

- Developing detailed project plans, schedules, and technical drawings.
- Conducting risk assessments and resource allocation.

Execution & Construction:

- Implementing civil, mechanical, and infrastructure works according to design specifications.
- Ensuring quality control, safety compliance, and environmental management.

Testing & Commissioning:

- Verifying structural integrity, system functionality, and compliance with project standards.

Project Handover & Support:

- Formal handover to the client with documentation, training, and post-project support.

This methodology ensures that Sungrit Engineering delivers projects on time, within budget, and exceeding client expectations, while maintaining safety, quality, and sustainability throughout the process.

PAST PROJECTS /CASE STUDIES

Sungrit Engineering has successfully completed a wide range of civil, road, drainage, and mechanical projects across Malaysia. Each project demonstrates our commitment to quality, safety, and client satisfaction.

Highlighted Projects:

Drainage & Earthworks – (Bukit Tunku)

- Scope: Site grading, trenching, stormwater drainage installation
- Outcome: Reduced flooding risk and enhanced site safety

Mechanical Installations –
Hotel Grand continental Kuala Lumpur

- Scope: Equipment setup, structural supports, and commissioning
- Outcome: Efficient system operation with minimal downtime

Customized Engineering Solutions –
Various Clients

- Scope: Tailored civil and mechanical solutions to meet specific project requirements
- Outcome: High client satisfaction and repeat engagements

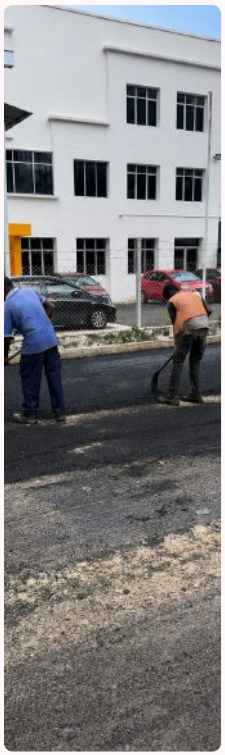

Approach:

All projects are executed using modern equipment, skilled personnel, and strict adherence to safety and regulatory standards, ensuring that every project is on time, within budget, and of the highest quality.

PAST PROJECTS /CASE STUDIES

Sungrit Engineering has successfully completed a wide range of civil, road, drainage, and mechanical projects across Malaysia. Each project demonstrates our commitment to quality, safety, and client satisfaction.

Highlighted Projects:

Road Construction & Resurfacing

- Scope: Full road reconstruction, drainage integration, and pavement resurfacing
- Outcome: Improved traffic flow and durability for high-traffic routes

- Cadangan membina 7 unit rumah sesebuah (strata) 4 tingkat di atas Lot 20007, Jalan Tunku, Seksyen 71, Bukit Tunku, Bandaraya Kuala Lumpur, Wilayah Persekutuan Kuala Lumpur.
- Renovation, refurbishment of MMA House and interior design fit-out works at ground floor, first and fourth floor, and all common areas and amenities of the second, third and fifth floor of MMA House, including renovation and refurbishment works for the floor and the whole external facade at MMA House, 124, Jalan Pahang, 53000 Kuala Lumpur, Wilayah Persekutuan Kuala Lumpur.
- Proposed pipe replacement program in Selangor, Wilayah Persekutuan Kuala Lumpur and Putrajaya for year 2024, Package 86G – SS14 & SS17 Subang Jaya.
- Proposed pipe replacement program in Selangor, Wilayah Persekutuan Kuala Lumpur and Putrajaya for year 2024, Package 86A – SS13 Subang Jaya.
- Proposed pipe replacement program in Selangor, Wilayah Persekutuan Kuala Lumpur and Putrajaya for year 2024, Package 92D – Klang.
- Proposed pipe replacement program in Selangor, Wilayah Persekutuan Kuala Lumpur and Putrajaya year 2025: Package 103C - Klang

WHY CHOOSE US

At Sungrit Engineering, we are dedicated to delivering high-quality, reliable, and safe engineering solutions. Our clients choose us because we combine technical expertise, disciplined project management, and a client-focused approach.

Key Reasons to Partner with Us:

- Experienced Team: Skilled engineers, project managers, and technicians with proven track records.
- Modern Equipment & Technology: Advanced machinery and tools for precise and efficient project execution.
- Safety & Compliance: Strict adherence to Malaysian regulatory standards and best practices.
- Quality Assurance: Commitment to superior workmanship and attention to detail in every project.
- Timely Delivery: Projects completed on schedule and within budget.
- Client-Centric Approach: Customized solutions tailored to meet each client's unique requirements.

Our focus on integrity, professionalism, and excellence ensures that every project meets the highest standards and exceeds client expectations.

QUALITY, SAFETY & COMPLIANCE

At Sungrit Engineering, we prioritize quality, safety, and compliance in every project, ensuring that our work meets the highest standards of engineering and regulatory requirements.

Quality Assurance:

- Strict adherence to Malaysian engineering standards and project specifications.
- Continuous monitoring and inspection during all phases of construction.
- Use of modern equipment and proven methodologies to deliver durable, high-quality results.

Safety Practices:

- Comprehensive occupational safety protocols for all personnel on-site.
- Regular training and certifications for employees on safety best practices.
- Implementation of hazard assessments, PPE usage, and emergency procedures.

Regulatory Compliance:

- Full compliance with local laws, regulations, and industry guidelines.
- Documentation and reporting aligned with governmental standards.
- Collaboration with authorities to ensure all projects meet statutory requirements.

Our commitment to quality, safety, and compliance ensures client confidence, minimizes risks, and reinforces Sungrit Engineering's reputation as a trusted and reliable engineering partner.

CLIENTELE & PARTNERS

Over the years, Sungrit Engineering has built strong relationships with a diverse range of clients and partners across civil, infrastructure, and industrial projects. Our focus on quality, safety, and reliability has earned us the trust of both private and public sector clients.

Notable Clients & Partners Include:

- Government & Municipal Agencies – Collaborations on roadworks, drainage, and public infrastructure projects.
- Commercial & Industrial Developers – Structural, mechanical, and site preparation projects for industrial facilities and commercial complexes.
- Construction & Engineering Firms – Joint ventures on large-scale infrastructure projects.
- Utility & Service Providers – Drainage, earthworks, and site preparation support for utility installations.

Our long-term partnerships are a testament to our commitment to excellence, professionalism, and client satisfaction.

CERTIFICATIONS

Sungrit Engineering is committed to maintaining the highest standards of quality, safety, and professionalism. Our certifications and compliance measures reflect our dedication to delivering reliable and legally compliant engineering services.

THANK YOU

FOR VISIT SUNGRIT ENGINEERING

Thank you for taking the time to review Sungrit Engineering's company profile.

We are dedicated to delivering high-quality, reliable, and safe engineering solutions that meet the unique needs of each client. Our team of skilled professionals, combined with modern equipment and disciplined project management, ensures that every project is executed with precision, safety, and excellence.

We look forward to the opportunity to partner with you on your next engineering project and provide solutions that exceed expectations and stand the test of time.
