COMPANY PROFILE

TRT M&E BUILDERS SDN. BHD.

Engineering Excellence. Building the Future.

Civil Construction • Electrical Engineering • Mechanical Engineering • Specialised Engineering Services

MESSAGE

Delivering reliable, innovative and high-quality engineering solutions with a strong commitment to safety, integrity and customer satisfaction.

2026

Welcome to!
TRT M&E Builders

Welcome to TRT M&E Builders Sdn. Bhd., a Malaysian construction and engineering company committed to delivering reliable, practical and high-quality solutions across civil, electrical and mechanical works.

Our services cover electrical wiring and fittings, specialised construction, HVAC systems, plumbing and piping, fire-protection solutions, maintenance services and electric-vehicle charger installation. Every project is carried out with careful planning, professional execution and strong attention to safety, workmanship and regulatory compliance.

Supported by CIDB Grade G2 and Ministry of Finance registrations, we continue to strengthen our capabilities and serve commercial, industrial, residential and public-sector requirements with integrity and dedication.

We sincerely appreciate your interest in our company and look forward to building trusted partnerships, delivering dependable engineering solutions and contributing positively to every project we undertake.

Engineering Excellence. Building the Future.

Company Overview

TRT M&E Builders Sdn. Bhd. is a Malaysian construction and engineering company providing integrated civil, electrical and mechanical solutions. Incorporated on 10 May 2024, the company's registered activities include engineering services, electrical wiring and fittings, and other specialised construction works.

The company's capabilities cover building construction and renovation, electrical system installation, cable laying, HVAC systems, plumbing and piping, fire-protection works, maintenance services and electric-vehicle charger installation. TRT M&E Builders serves the needs of residential, commercial and industrial projects through practical planning, skilled workmanship and dependable project execution.

TRT M&E Builders is registered with CIDB Malaysia as a Grade G2 contractor under categories B04 and CE21. The company is also registered with the Ministry of Finance Malaysia in multiple active supply and service fields, including building materials, electrical equipment and accessories, cables and wiring products, engineering machinery, maintenance services and manpower support.

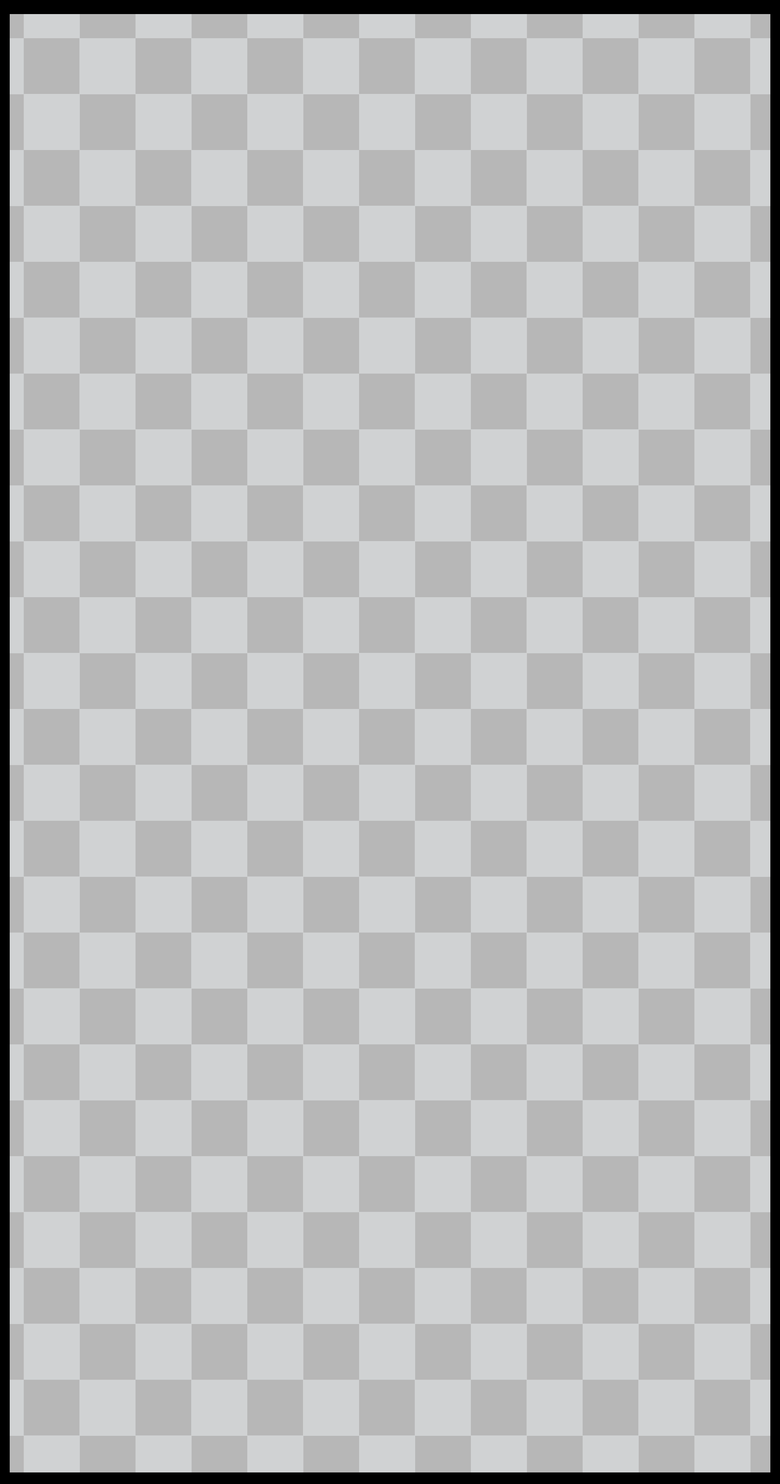

Guided by integrity, quality, safety, innovation and customer satisfaction, TRT M&E Builders is committed to delivering reliable engineering solutions while building long-term relationships with clients, consultants, contractors and business partners. The company continues to strengthen its technical capabilities, embrace emerging technologies and pursue sustainable growth within Malaysia's construction and engineering industry.

Director’s Profile

Jaiyaveill A/L Muniandy
Founder and Director

Jaiyaveill A/L Muniandy is the Director of TRT M&E Builders Sdn. Bhd. and provides strategic leadership for the company’s construction, electrical and mechanical engineering operations. He holds a Diploma in Mechatronics, giving him a technical foundation that supports the company’s multidisciplinary engineering capabilities. The company’s original profile identifies him as a Malaysian citizen and Director, while the SSM record confirms his appointment on 10 May 2024.

Under his leadership, TRT M&E Builders focuses on professional project planning, reliable execution, quality workmanship and safe working practices. His direction supports the company’s continued development in civil construction, electrical systems, mechanical works, HVAC installations, specialised engineering services and emerging solutions such as EV charging infrastructure.

Director’s Message

“Building with integrity, delivering with excellence.”

Welcome to TRT M&E Builders Sdn. Bhd.

Our company was established with a clear purpose: to provide dependable civil, electrical and mechanical engineering solutions that create lasting value for our clients and the communities we serve.

We believe that every successful project begins with careful planning, technical understanding and a strong commitment to quality. From electrical installation and cable works to mechanical systems, HVAC solutions, specialised construction and EV charger installation, our team approaches every assignment with professionalism, responsibility and attention to detail.

Safety, integrity and customer satisfaction remain at the centre of our operations. We are committed to meeting regulatory requirements, adopting practical technologies and continuously improving our knowledge, skills and working processes. These principles guide us in delivering projects efficiently while maintaining the standards expected by our clients and industry partners.

As TRT M&E Builders continues to grow, we aim to expand our capabilities, explore new opportunities and build lasting partnerships founded on trust, transparency and mutual success. We sincerely appreciate the confidence placed in our company and look forward to working together to build a stronger and more sustainable future.

Jaiyaveill A/L Muniandy
Director
TRT M&E Builders Sdn. Bhd.

Vision

To become a leading construction and engineering company recognised for innovative solutions, quality workmanship and a strong commitment to customer satisfaction. TRT M&E Builders aspires to establish new industry benchmarks through sustainable practices, modern technologies and dependable project delivery.

Mission

To provide exceptional civil, electrical and mechanical engineering solutions that enhance the built environment and improve the quality of life of our clients and communities. We are committed to completing every project with high standards of quality, safety, integrity and professionalism.

Core Values

Integrity

We conduct our business with honesty, transparency and accountability, building trust with clients, partners, employees and stakeholders.

Quality

We are committed to superior workmanship, reliable materials and professional services that meet recognised industry standards.

Safety

We prioritise the safety and well-being of our workforce, clients and communities through responsible working practices and strict compliance with safety requirements.

Innovation

We embrace modern technologies, practical ideas and continuous improvement to deliver efficient and forward-looking engineering solutions.

Customer Focus

We understand the specific needs of every client and provide customised solutions that support successful project outcomes and long-term relationships.

Sustainability

We promote responsible construction practices, efficient resource use and solutions that minimise environmental impact.

Collaboration

We encourage teamwork, mutual respect and open communication to achieve shared objectives and deliver projects effectively.

Corporate Objectives and Commitments

At TRT M&E Builders Sdn. Bhd., our objectives guide every project from planning to completion. We are committed to delivering reliable civil, electrical and mechanical engineering solutions with strong attention to quality, safety and customer satisfaction.

Our Objectives

- Deliver high-quality engineering and construction services
- Apply practical technologies and improved working methods
- Complete projects safely, efficiently and within agreed requirements
- Understand client needs and provide responsive solutions
- Strengthen employee skills and operational capabilities
- Promote sustainable and responsible practices
- Build trusted, long-term business relationships

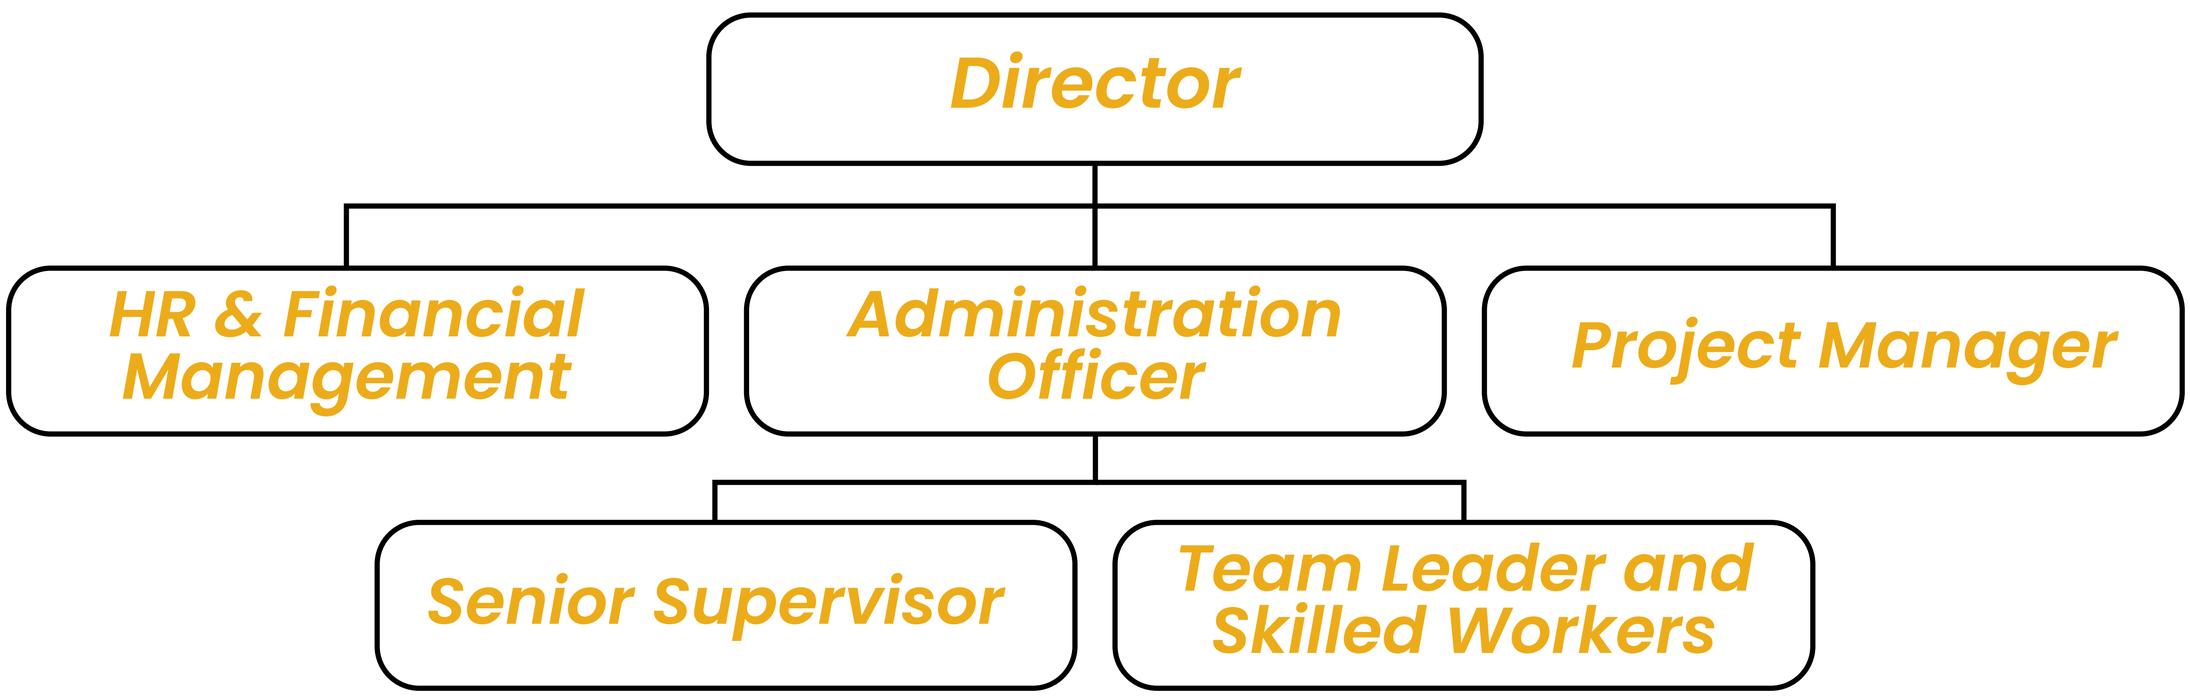

Our Commitment

We are committed to professional project management, skilled workmanship, ethical business practices and continuous improvement. Our goal is to create lasting value for clients, partners and the communities we serve.

Organisation Structure and Team

TRT M&E Builders Sdn. Bhd. operates through a clear and practical organisational structure that supports effective communication, project coordination and site execution.

Organisation Structure

Director

Provides strategic leadership, business direction and overall operational oversight.

HR & Financial Management

Manages employee administration, financial coordination and internal support functions.

Administration Officer

Handles documentation, scheduling, communication and day-to-day administrative matters.

Project Manager

Plans and coordinates projects, monitors progress and ensures work is completed according to requirements.

Senior Supervisor

Oversees site activities, workmanship, safety practices and project implementation.

Team Leader and Skilled Workers

Carry out civil, electrical and mechanical works under proper supervision and technical guidance.

Through teamwork, clear responsibilities and coordinated site management, the company is able to deliver projects efficiently while maintaining quality, safety and reliability. The original company profile shows a structure comprising the Director, HR and financial management, administration, project management, senior supervision, a team leader and four skilled workers.

OUR Core Services

TRT M&E Builders Sdn. Bhd. provides integrated construction and engineering solutions for residential, commercial, industrial and specialised project requirements. Our services are delivered with a strong focus on quality workmanship, safety, reliability and practical project execution.

Civil Engineering and Construction

Building construction, renovation, infrastructure works, public facilities, land development and environmentally responsible construction solutions.

Electrical Engineering

Electrical wiring, system design and installation, power distribution, cable laying, lighting systems, maintenance, repairs and system upgrades.

Mechanical Engineering

Installation and maintenance of mechanical systems, equipment, plumbing, piping, water-supply and drainage solutions.

HVAC Services

Design, installation, servicing, repair and optimisation of heating, ventilation and air-conditioning systems.

Fire Protection Systems

Installation, inspection and maintenance of fire-protection and suppression systems for different types of premises.

EV Charger Installation

Residential, commercial and public electric-vehicle charging station installation, testing, maintenance and customised charging solutions.

Maintenance and Technical Support

Preventive maintenance, troubleshooting, repair works and technical support for electrical, mechanical and engineering systems.

The company’s registered activities include engineering services, electrical wiring and fittings, and specialised construction works, supported by active CIDB and Ministry of Finance registrations.

Civil Engineering and Construction

TRT M&E Builders Sdn. Bhd. provides reliable civil engineering and construction solutions for residential, commercial, industrial and public-facility projects. Our work is planned and executed with close attention to quality, safety, functionality and timely completion.

Our Capabilities

- Building construction and structural works
- Renovation, upgrading and remodelling
- Commercial, residential and industrial projects
- Road, bridge and infrastructure-related works
- Urban and land-development support
- Public-facility and building-improvement works
- Water and waste-management solutions
- Sustainable construction practices

Supported by its CIDB Grade G2 registration under categories B04 and CE21, TRT M&E Builders is committed to delivering practical construction solutions that meet client requirements and applicable industry standards.

Electrical Engineering Services

TRT M&E Builders Sdn. Bhd. provides comprehensive electrical engineering solutions for residential, commercial and industrial projects. Our services are carried out with strong attention to safety, reliability, quality workmanship and regulatory requirements.

Our Capabilities

- Electrical system design and installation
- Electrical wiring and fittings
- Power distribution and transmission systems
- LV cable laying and installation
- Lighting systems and electrical accessories
- Electrical panels, components and equipment
- System maintenance, repair and upgrading
- Emergency electrical support
- Energy-efficiency solutions
- Testing and commissioning

The company’s registered business activities include electrical wiring and fittings, while its Ministry of Finance registration covers cables, wires, electrical systems, components, accessories and electrical maintenance services.

TRT M&E Builders has also completed electrical works including new wiring, cable laying and electrical installations for commercial and industrial clients.

Mechanical,
HVAC and Plumbing Services

TRT M&E Builders Sdn. Bhd. provides practical mechanical, HVAC and plumbing solutions for residential, commercial and industrial projects. Our services focus on system reliability, operational efficiency, safety and long-term performance.

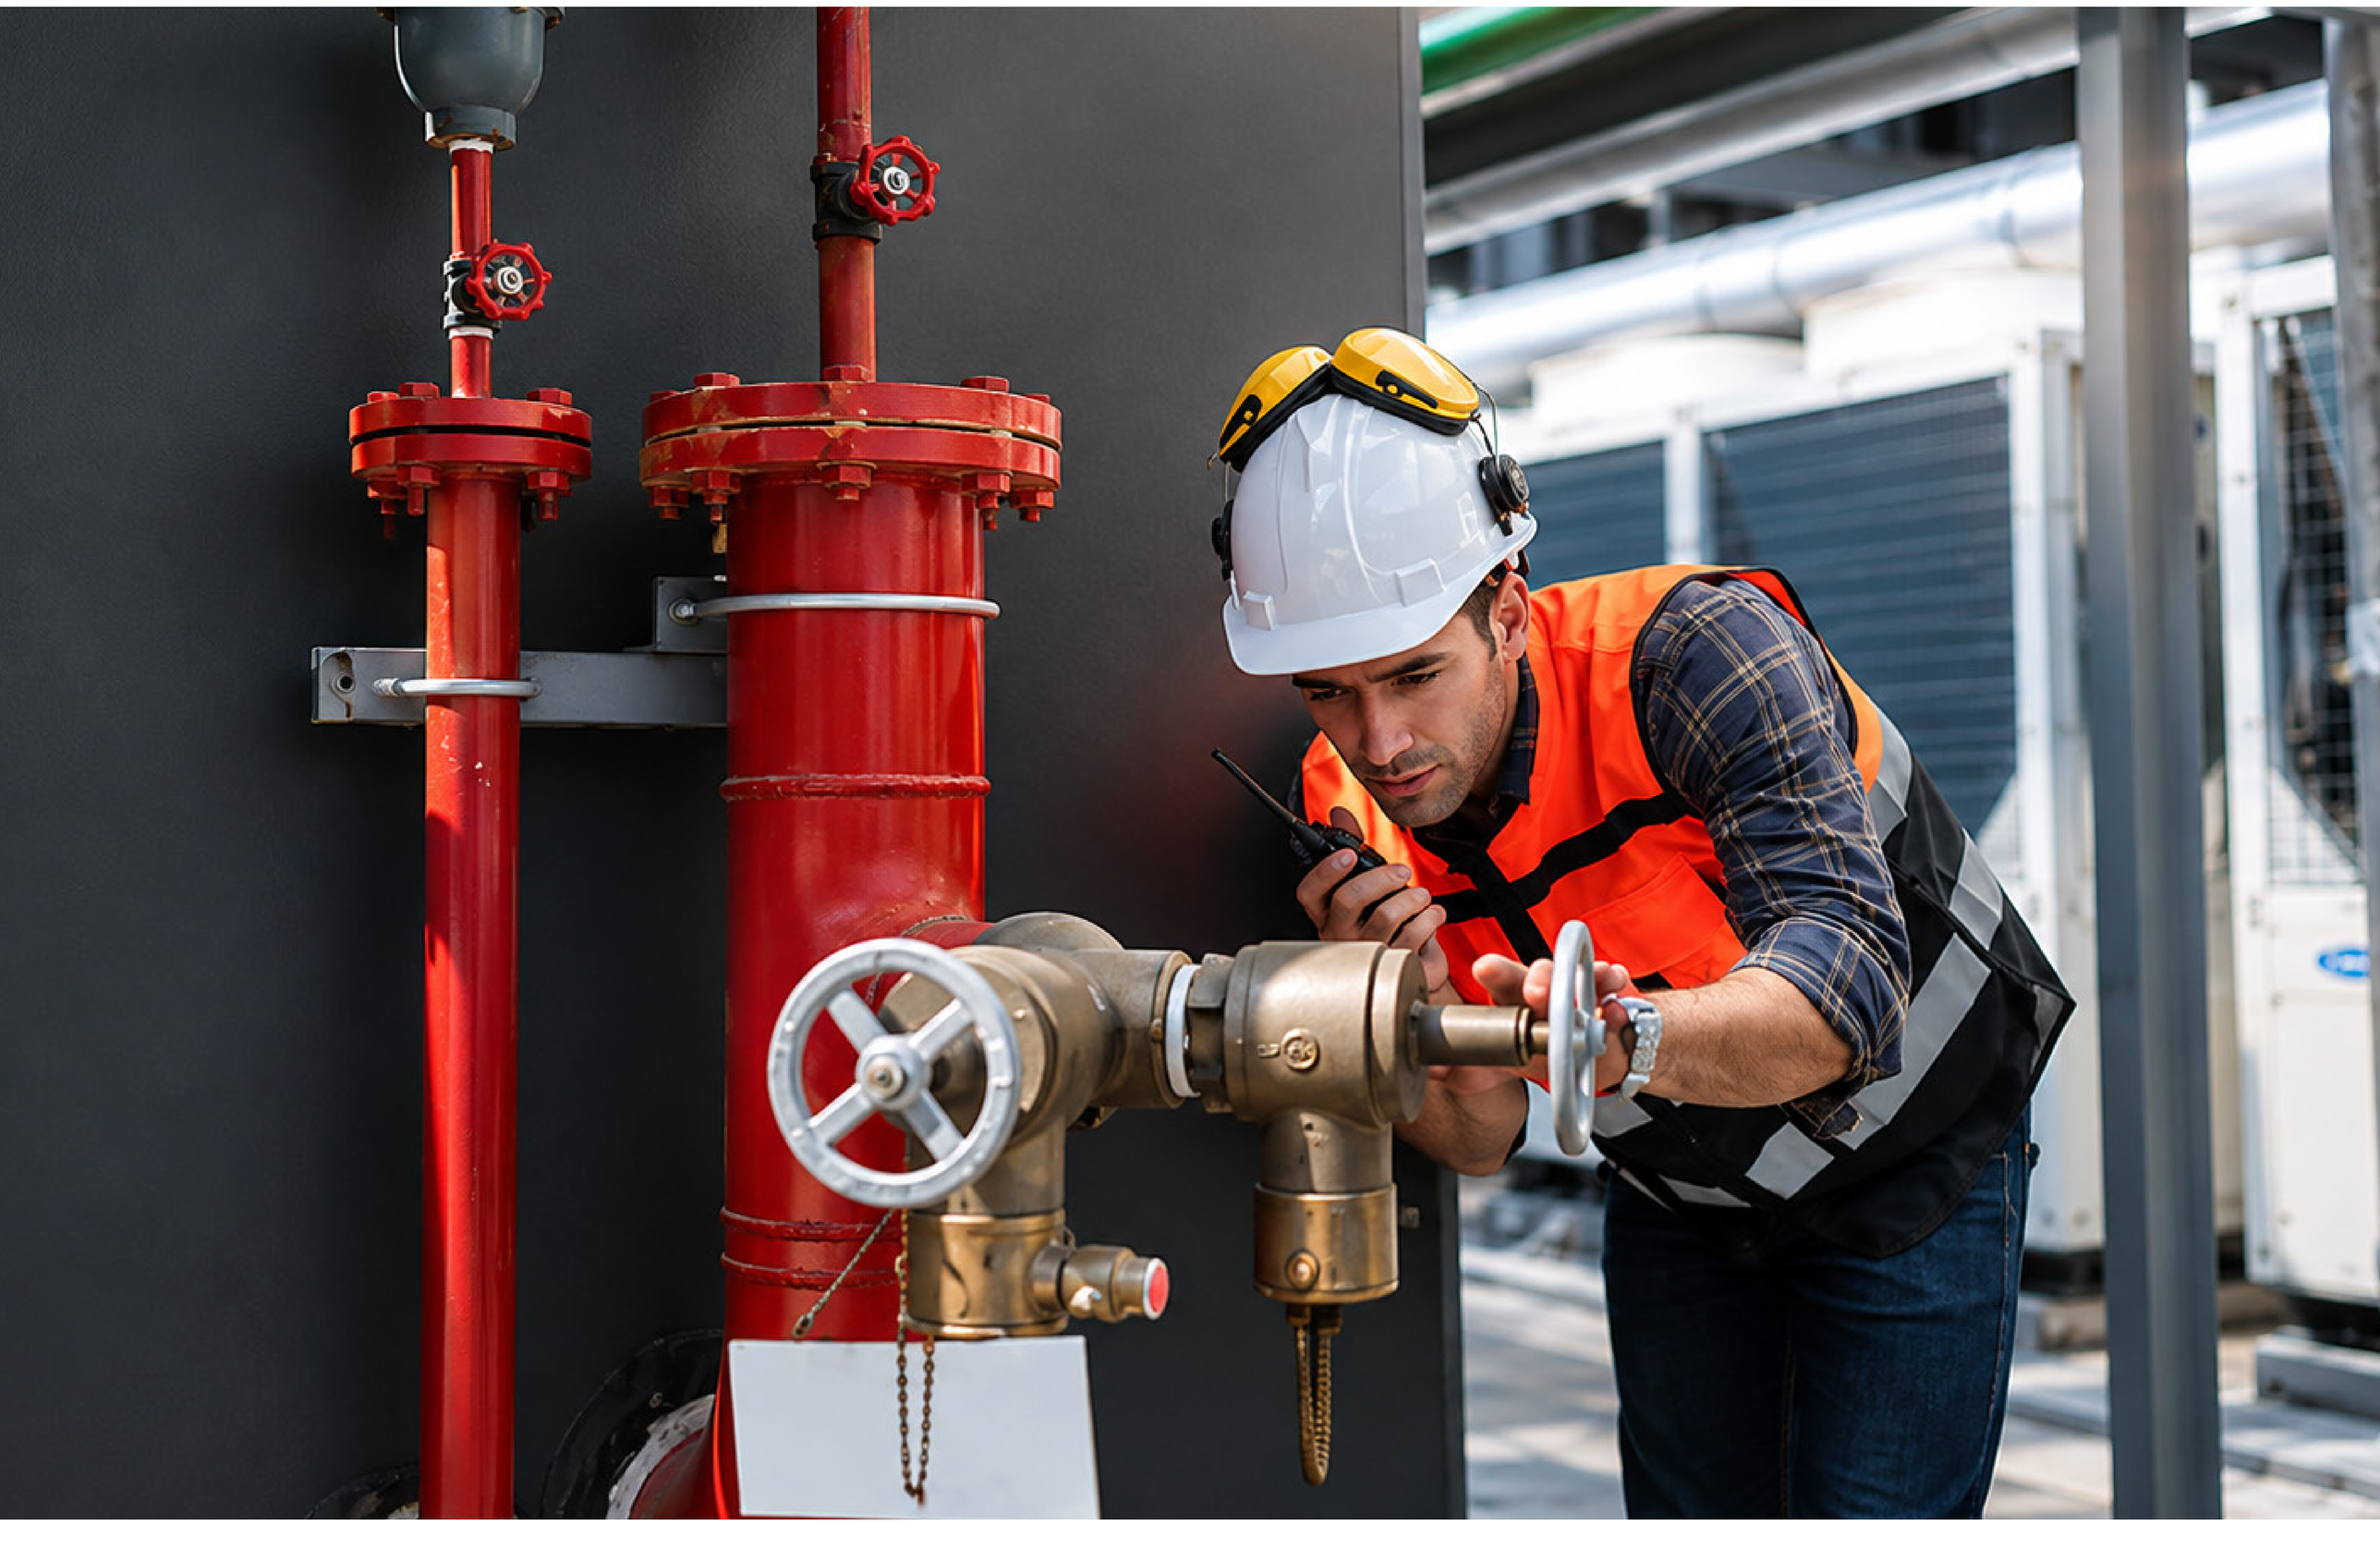

Our Capabilities

- HVAC system design and installation
- Air-conditioning and ventilation services
- Routine HVAC maintenance and repair
- System optimisation and performance improvement
- Mechanical equipment installation
- Plumbing and piping works
- Water-supply system installation
- Drainage system installation and maintenance
- Technical troubleshooting and corrective works
- Testing and commissioning

Through professional planning, skilled workmanship and regular maintenance support, TRT M&E Builders helps clients maintain efficient and dependable mechanical systems.

Fire Protection and Specialised Engineering

TRT M&E Builders Sdn. Bhd. provides reliable fire-protection and specialised engineering solutions for residential, commercial and industrial premises. Our services are planned and carried out with close attention to safety, system performance and regulatory requirements.

Our Capabilities

- Fire-protection system design and installation
- Fire-suppression system installation
- Inspection and preventive maintenance
- System testing and performance checks
- Repair and upgrading works
- Specialised electrical and mechanical installations
- EV charger installation for residential, commercial and public use
- Customised technical solutions based on project requirements

Through professional planning, skilled execution and ongoing maintenance support, TRT M&E Builders helps clients maintain safe, efficient and dependable engineering systems.

EV Charging and Emerging Technologies

TRT M&E Builders Sdn. Bhd. provides EV charging solutions that support the growing demand for cleaner and more efficient transportation infrastructure. Our services are suitable for residential, commercial and public locations.

Our Capabilities

- EV charger installation and electrical connection
- Residential, commercial and public charging stations
- Site assessment and installation planning
- Testing and commissioning
- Charger maintenance and servicing
- Customised solutions based on usage requirements
- Energy-efficient electrical system support
- Renewable-energy-related solutions

The company has practical experience in EV charger installation, including work completed at AEON Seri Manjung. Through continuous improvement and the adoption of emerging technologies, TRT M&E Builders aims to deliver modern, reliable and future-ready engineering solutions.

Supply, Maintenance and Government Procurement Support

TRT M&E Builders Sdn. Bhd. provides supply, maintenance and technical support services for commercial, industrial and government-sector requirements. Supported by its Ministry of Finance registration, the company is positioned to participate in relevant procurement, supply and service opportunities.

Our Capabilities

- Supply of electrical cables, wires, components and accessories
- Electrical and electronic equipment supply
- Building materials, pipes and related fittings
- Generators, batteries, spare parts and engineering equipment
- Electrical system maintenance and repair
- Machinery and workshop-equipment maintenance
- Manpower and technical workforce support
- Building, office, warehouse and premises-related services
- Interior and external area-improvement works

With multiple active MOF supply and service codes, TRT M&E Builders is committed to providing reliable products, responsive maintenance and professional support in accordance with client and procurement requirements.

Project Delivery
Quality, Safety and Sustainability

TRT M&E Builders Sdn. Bhd. follows a structured project-delivery approach to ensure every assignment is completed professionally, safely and according to client requirements. From initial consultation to final handover, our team focuses on careful planning, coordinated execution and reliable technical support.

Project Delivery Approach

- Client consultation and requirement assessment
- Site inspection and technical evaluation
- Project planning, quotation and resource allocation
- Professional construction and engineering execution
- Progress monitoring and quality inspection
- Testing, commissioning and final handover
- Maintenance and after-service support

Quality Commitment

We maintain close attention to workmanship, materials, technical specifications and industry best practices. Our goal is to deliver durable, efficient and dependable solutions that meet agreed project standards.

Safety and Compliance

The safety of our employees, clients and stakeholders remains a key priority. We follow established safety procedures, regulatory requirements and proactive risk-management practices throughout project implementation.

Sustainability

We promote responsible construction practices, efficient resource use and environmentally conscious solutions. By adopting practical technologies and reducing unnecessary waste, TRT M&E Builders aims to support long-term operational efficiency and sustainable development.

Through quality control, safe working practices and responsible project management, we are committed to delivering projects on schedule, within agreed requirements and with lasting value.

Project Portfolio and Work Gallery

TRT M&E Builders Sdn. Bhd. has completed a range of electrical, mechanical, HVAC and specialised engineering works for commercial, industrial and public locations. Each project reflects our commitment to quality workmanship, safe execution, technical reliability and timely delivery.

Our Portfolio Commitment

From site preparation and installation to testing and project completion, TRT M&E Builders approaches every assignment with professional coordination, skilled execution and close attention to client requirements.

Our Certifications and Registrations

TRT M&E Builders Sdn. Bhd. maintains recognised corporate and industry registrations that support its participation in construction, engineering, supply, maintenance and government procurement activities in Malaysia.
