V SMART KITCHEN

COMPANY PROFILE

Elegance in Style, Practicality in Design

Interior Design & Custom Furniture Solutions

Creating modern, functional and elegant living spaces through innovative kitchen solutions, customised furniture and quality craftsmanship.

Established 2007 | Incorporated 2019

Penang, Malaysia

About V Smart Kitchen

Creating Elegant Spaces Through Innovative Design & Quality Craftsmanship

Since its inception in 2007, V Smart Kitchen has been dedicated to creating inspiring interior spaces through innovative design, practical solutions and quality workmanship.

With expertise in custom-made kitchen cabinets, wardrobes, interior design and furniture solutions, we transform everyday spaces into functional and elegant environments tailored to our clients' lifestyles.

In 2019, the company expanded its operations and was incorporated as V Smart Kitchen (M) Sdn. Bhd., strengthening its commitment to delivering comprehensive interior solutions with enhanced capabilities, professional service and consistent quality standards.

Today, V Smart Kitchen continues to combine creativity, precision craftsmanship and modern design approaches to create spaces that reflect style, comfort and functionality.

CUSTOM FURNITURE

Our Vision

To become a trusted interior design and custom furniture solutions provider recognised for creating elegant, functional and innovative spaces that enhance modern lifestyles.

Our Mission

At V Smart Kitchen, we are committed to:

- Delivering high-quality customised interior solutions tailored to every client's needs.
- Combining creative design, practical functionality and skilled craftsmanship.
- Providing reliable services from concept development to final installation.
- Continuously improving through innovation, technology and customer-focused approaches.

Our Aspirations

We strive to:

Create Inspiring Spaces

Transform ideas into beautifully designed environments that reflect individual lifestyles and preferences.

Deliver Excellence

Maintain high standards in design, materials, workmanship and customer service.

Grow Through Innovation

Adopt modern solutions and creative approaches to deliver smarter living spaces.

Build Lasting Relationships

Develop strong partnerships with clients through trust, commitment and consistent quality.

Our passion for interior design drives us to create spaces that inspire and comfort, reflecting our love for beautiful living environments, all guided by these core values:

Enthusiasm

which fuels our creativity and dedication, ensuring every project is approached with energy and excitement.

Togetherness

which forms the heart of our culture, fostering collaboration and a strong sense of community within our team.

"Get-it-done" attitude

which ensures we deliver on our promises, overcoming challenges with determination and efficiency.

Optimism

which encourages us to constantly seek for new and innovative ways to improve our designs and processes, seeing opportunities in setbacks and always looking towards a brighter future with a positive outlook.

Our Core Value

Our Credentials

As an interior design company, we aim to redefine spaces with precision and finesse while meeting construction compliance standards and regulations set by authorities. Our goal is to ensure that aesthetics and style are coupled with safety and functionality, creating environments that truly elevate the living experience.

Company Registration & CIDB Credentials:

Registered under the Companies Commission of Malaysia (Suruhanjaya Syarikat Malaysia – SSM), V Smart Kitchen (M) Sdn. Bhd. also holds a CIDB License Grade G3 in building construction works (B04) and civil engineering construction (CE21) authorised by the Construction Industry Development Board (CIDB), which ensures that our interior design works always meet the specification and standards set forth by the authorities.

MPSP Licensing:

As our headquarters are based in Penang, we also possess a MPSP License endorsed by the Seberang Perai Municipal Council (MPSP), ensuring business operations on Penang Mainland are implemented with compliance to the local authority rules and regulations.

Key Credentials

- SSM Registered Company
- CIDB Grade G3
- B04 — Building Construction Works
- CE21 — Civil Engineering Construction
- MPSP Business Licence

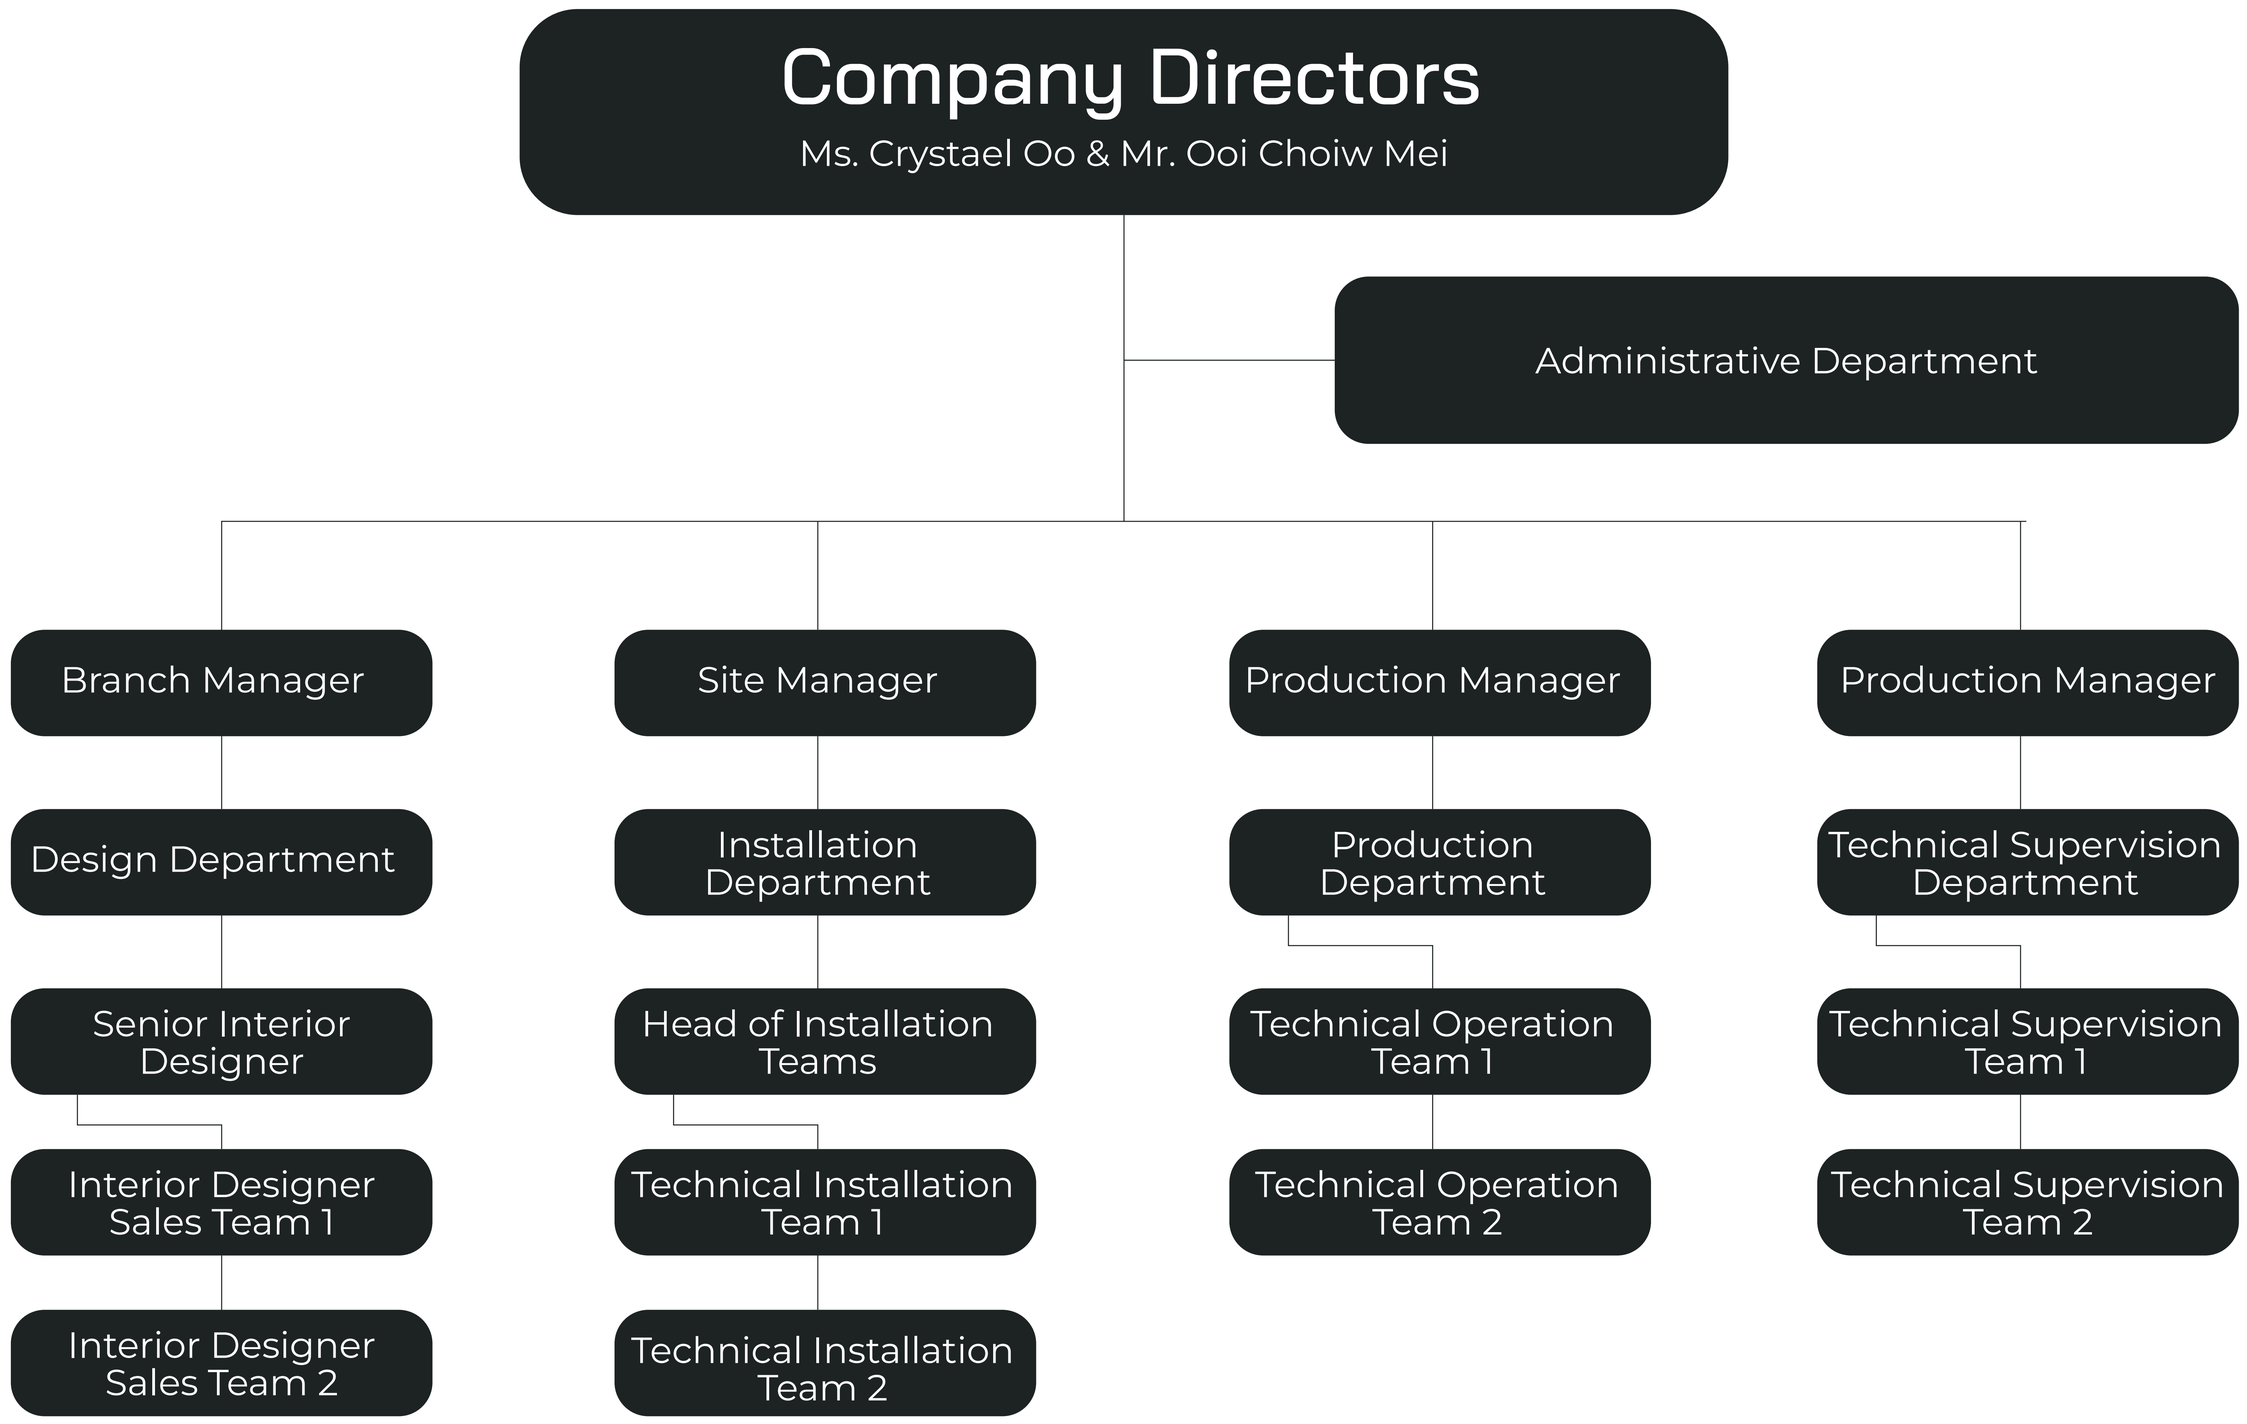

Our Team & Organisation Structure

One Team. One Vision. Seamless Project Delivery.

Our organisation brings together management, design, production and installation functions, ensuring clear coordination from initial consultation through to project completion.

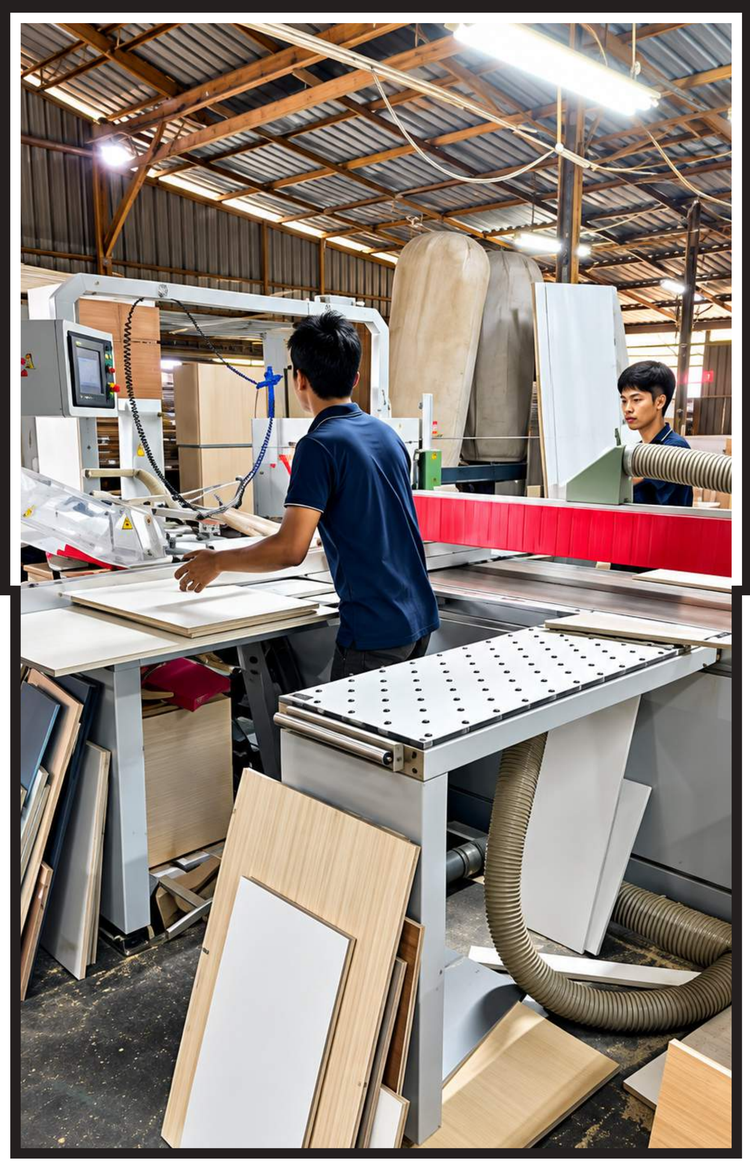

Organisation Structure

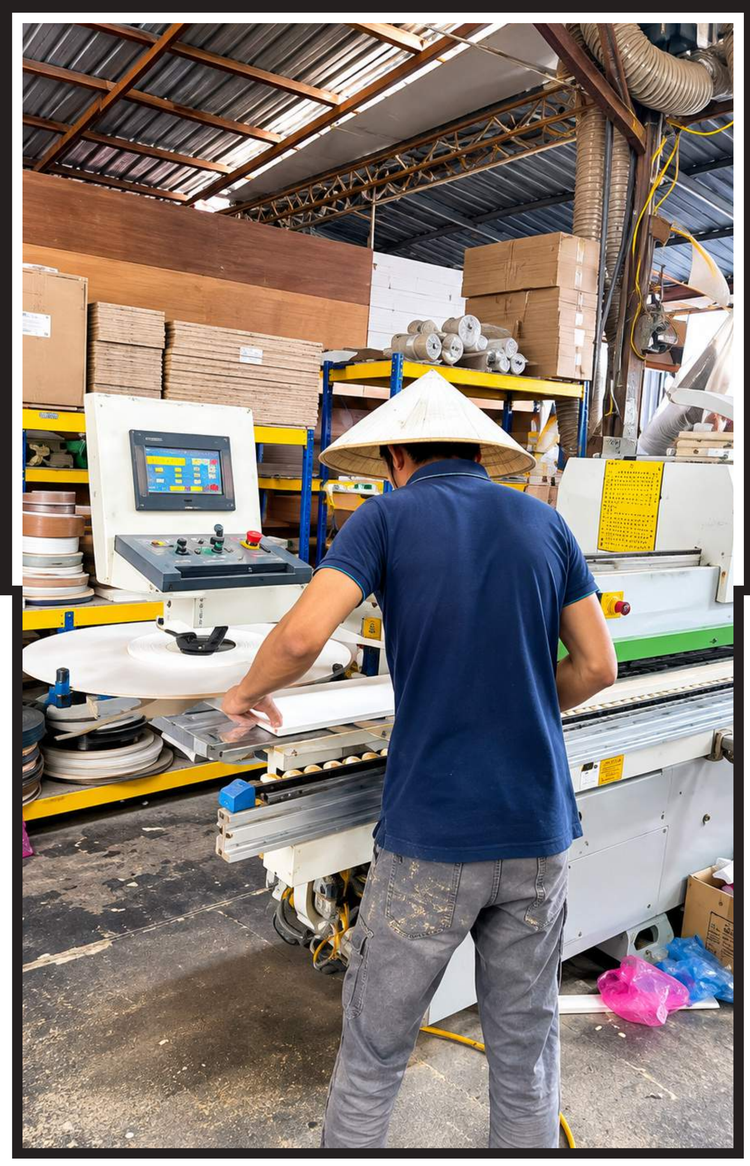

What Makes Us Stand Out?

V Smart Kitchen is a one-stop solution provider for custom-made modular kitchens and modular wardrobes, as well as other complementary services, which plays a key role in residential and commercial real estate projects. We specialise in delivering custom designs tailored to our clients' unique needs, ensuring seamless integration with any property development.

Advanced Machinery for Precision & Quality Workmanship

At V Smart Kitchen, one of our standout features in kitchen cabinet and wardrobe production is our commitment to precise workmanship. From the careful cutting of boards to the application of ABS edging, every detail is handled by our skilled technical and production teams. Our factory is equipped with state-of-the-art machinery, including the FH-10PS Semi Auto Panel Saw from the renowned brand FORMAHERO, the STS 3200 Sliding Table Saw, Edge Banding Machines, Door Hinges Drilling Machines, and Table Saws, as well as a comprehensive range of CNC machines. This advanced equipment ensures that every cabinet and wardrobe we produce meets the highest standards of quality and precision.

For instance, our company utilises a comprehensive range of CNC machines to ensure high-quality workmanship for interior design elements, such as wardrobes and kitchen cabinets. CNC milling machines offer precise and complex cuts, enhancing the detail and fit of our materials. CNC lathes, with their ability to make accurate cuts while rotating workpieces, provide a smooth finish to various components.

Merging Interior Designs with Practicality

Our smart storage solutions, cabinet lighting systems, and easy-to-clean materials ensure that our designs are both stylish and functional, enhancing the everyday living experience.

Matching Client’s Budget Requirements

We tailor our design packages to fit our clients’ budgets, selecting the right materials and offering furniture in various designs, colours, and shapes to meet their specific needs.

Stringent Quality Control

Our designs incorporate the latest market trends, using quality-approved materials and advanced techniques. Each piece of furniture is thoroughly inspected by our quality experts to ensure it meets our zero-defect standards.

Prompt Delivery Timeline

We understand the importance of meeting project deadlines, especially for property developers. Our professional and highly experienced teams manage everything from initial design planning and material sourcing to production and final on-site installation.

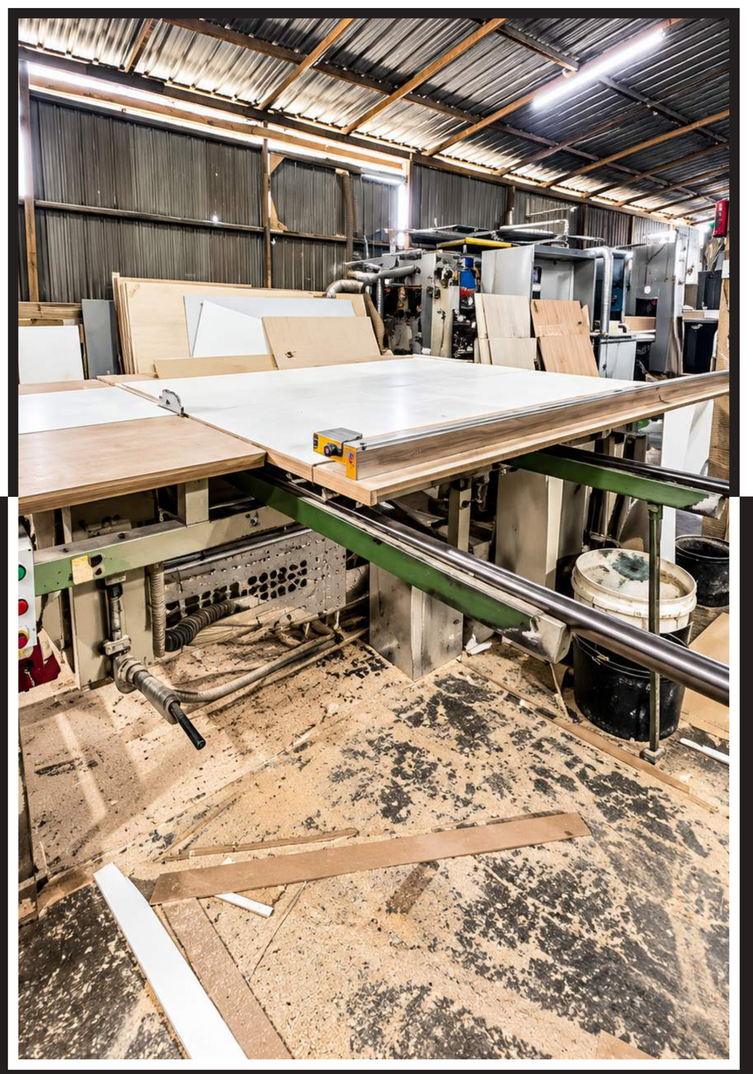

For intricate shapes and fine details, CNC routers work efficiently across a range of materials, from wood to aluminium, minimizing waste and increasing productivity. Meanwhile, CNC plasma and laser cutters deliver clean, precise cuts for heavier or denser materials, perfect for sturdy cabinet fittings and metal accents.

Finally, CNC electric discharge machines shape materials with exacting precision, ensuring a perfect fit and finish. Together, these machines allow us to achieve a superior standard of craftsmanship, durability, and design versatility.

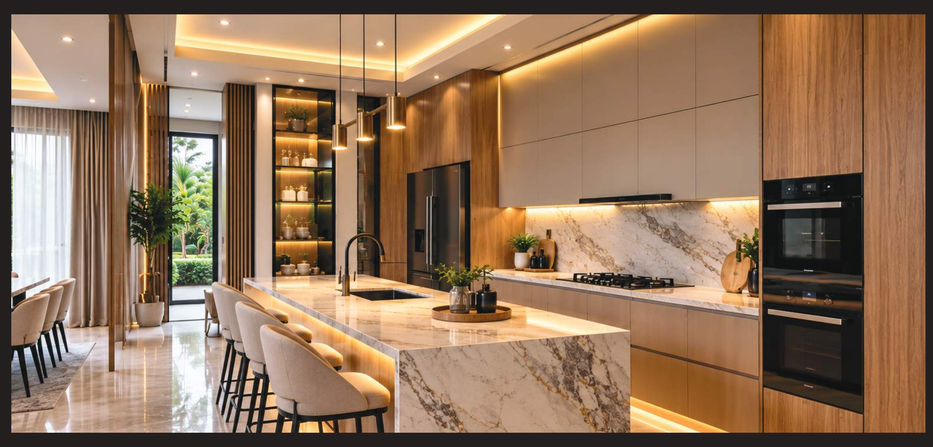

Our Core Services

Creating commercial spaces that work
as beautifully as they look.

Project Approach

A Structured Process From Concept to Completion

We follow a clear and collaborative process to ensure every project is carefully planned, designed and delivered to the required standard.

01

Consultation

Understand the client's needs, lifestyle, preferences and project requirements.

02

Site Assessment

Review the available space, dimensions and practical requirements.

03

Design & Planning

Develop customised concepts, layouts, materials and finishes.

04

Production

Translate approved designs into precisely crafted furniture and interior elements.

05

Installation

Professionally install and integrate the completed elements into the space.

06

Final Handover

Complete final checks and ensure the finished space meets the agreed requirements.

What We Offer

At V Smart Kitchen, we cater to a diverse clientele, ranging from residential to commercial property projects, offering a comprehensive range of products and services. Our expertise includes designing and building kitchen cabinets and wardrobes, covering both mass production of modular cabinets and custom-made designs to fit any project scale.

Discover our diverse range of kitchen cabinets and wardrobe designs, from contemporary sleek to classic vintage styles, featuring open concepts, optimized storage and space-saving solutions, as well as integrated lighting, along with other custom shelving for study, living, dining, and laundry areas — perfectly merging design, style, and functionality.

Our Future Outlook

V Smart Kitchen (M) Sdn. Bhd. is embarking on an exciting journey to expand its footprint across Malaysia, with a special focus on Penang and a broader reach across Peninsular Malaysia which includes Sungai Petani, Kulim, and many more. In collaboration with prominent real estate developers, V Smart Kitchen will play a significant role in shaping the interior design landscape of new residential and commercial projects. Our reputation for delivering exceptional interior design solutions positions us to bring our unique blend of creativity and functionality to these bustling locales.

We aim to venture into the East Malaysian market to further underscore our commitment in transforming homes and businesses with our innovative designs, ensuring every space we touch exudes elegance, style and practicality.
Looking beyond Malaysia, V Smart Kitchen is setting its sights on the dynamic markets of Southeast Asia. This strategic move aims to introduce our customised interior design services to a broader audience, tapping into the region's diverse cultural aesthetics.

By collaborating with leading real estate developers across Southeast Asia, we aim to influence the interior design standards of new developments, ensuring they reflect our high standards of quality and customer satisfaction.
At V Smart Kitchen, we remain dedicated to our passion for creating attractive and inspiring interiors which align with functionality, making a lasting impact on every project we undertake.
